Name: Baylor Research Institute

Form 990 (2019)

Form 990, Part III, Line 4a:

See Schedule O Established in 1984, Baylor Scott & White Research Institute (BSWRI) is responsible for the oversight and management of all observational and clinical research conducted throughout the Baylor Scott & White Health (BSWH) system. BSWRI expanded its operations in 2013 as part of the merger between Dallas-based Baylor Health Care System and Temple-based Scott & White Healthcare, which created BSWH the largest nonprofit health system in Texas. Today, BSWH has over 1,000 patient care sites including 52 hospitals, 562 specialty care clinics, 195 outpatient clinics, 172 primary care clinics, 31 pharmacies, 26 ambulatory surgery centers, and approximately 7,300 active physicians. The system also includes a state certified health maintenance organization, the Scott and White Health Plan and the Baylor Scott & White Quality Alliance accountable care organization both covering over 906,000 lives. BSWRI brings innovation to the forefront of medicine. From discovering new therapies that enhance available treatment options, to studying population health and other trends that improve quality of care. We pursue research focused on bringing patients greater value and addressing the health needs of the communities we serve. We are dedicated to advancing healthcare and ultimately, patient care, through the study and discovery of new preventive therapies and treatments for a broad spectrum of diseases and other chronic conditions. This means our efforts extend beyond microscopic studies; they bring innovation to the patient's bedside. We focus on understanding the base of a disease or condition, in order to then identify potential treatments or preventive therapies, and enroll patients in research trials to further test and/or validate each theory. BSWRI is home to a network of 1,100 Research Investigators and dedicated research staff operating within two administrative offices (Dallas and Temple), four clinical trials offices (Dallas, Fort Worth, Plano and Temple) and directly within various BSWRI centers, hospitals and clinics. Research staff include principal investigators, contracts and finance specialists, compliance and regulatory specialists, research coordinators, nurses, managers and directors, data analysts and lab assistants, among others. The group oversees research activities supporting nearly 2,000 trials in more than 50 specialty areas annually, including infectious disease, cardiology and vascular, gastroenterology, neurology, oncology and radiation, orthopedics, pathology, radiology, transplant and surgery. Research conducted by and supported by our organization is regularly published in major scientific journals and reported at medical and scientific meetings. This work has also resulted in more than 700 issued and pending patents and trademark registrations spanning immunotherapy, genomics, biomarkers, metabolomics, metabolics, cardiovascular disease and medical devices. The following is a brief snapshot of select clinical, translational and applied health research programs and activities led through BSWRI: Cardiovascular research: BSWRI holds a robust cardiovascular portfolio with study enrollment activities spanning nine BSWH sites, including our flagship cardiovascular programs at Baylor Scott & White The Heart Hospital - Plano, Baylor Scott & White Heart & Vascular Hospital - Dallas, Soltero Cardiovascular Research Center and Baylor Scott & White Medical Center - Temple. BSWRI is accredited by the Association for the Accreditation of Human Research Protection Programs, which is a voluntary, peer-driven and educationally-based model of accreditation. Each year, we enroll and monitor hundreds of patients as part of major clinical trials examining therapeutic and surgical approaches and outcomes, new medications and new devices. Our cardiovascular research portfolio supports trials spanning: Atrial Fibrillation, Vascular/TAA conditions, Heart Failure Transplant, Heart Rhythm Disorders, Hypercholesterolemia, Aortic Valve Disorders, Cardiorenal Syndrome, Electrophysiology, Coronary Artery Disease, & Mitral Valve Disorders. Oncology research: For nearly 40 years, we have been at the forefront of cancer care and research providing personalized, comprehensive and compassionate care for patients with all types of cancers. BSWH supports a sizeable cancer patient volume and stands out among other programs in the country for its clinical care and its clinical research, which takes place at locations including the Round Rock Cancer Center, Baylor Scott & White Medical Center - Temple, and Baylor Scott & White Charles A. Sammons Cancer Centers. BSWRI conducts clinical trials aimed at advanced screenings, prevention, diagnostic, and treatment options to ensure our efforts align with advancing the best-in-class services offered at BSWH. We run multiple trials across BSWH, including cutting-edge first-in-human CAR-T cell, dendritic vaccine, and Phase I, II and III combination-checkpoint inhibitor studies. Additionally, we have thousands of patients receiving the PD-1/PD-L1 inhibitors nivolumab, pembrolizumab, atezolizumab and durvalumab, and the CTLA-4 inhibitor ipilimumab for a broad number of malignancies. Applied health research: The Center for Applied Health Research (CAHR) supports investigator-initiated research to generate applied health knowledge across our healthcare system. CAHR is a collaborative, multidisciplinary research center within BSWRI. CAHR brings together clinicians, educators and researchers with expertise in areas such as health services research, administrative data extraction and reduction, derivation of care and outcome measures from archival medical records, community-based health research, statistical analysis, research mentoring, patient-centered safety, patient activation research and academic development of clinicians. Current CAHR programs include: 1) development and testing of innovative care models within health care and community settings, 2) impact of care delivery on the health and well-being of individuals and families, and 3) the larger impact of health programs on population health. CAHR's target populations include older adults, persons living with dementia and their caregivers, individuals with multiple chronic conditions, vulnerable populations and veterans. Our diverse research programs demonstrate collaborative efforts with various organizations, including the Department of Veterans Affairs, Texas A&M Health Science Center, national foundations and numerous health-oriented community-based organizations across Texas. Trauma and behavioral health research: BSWRI supports trauma and behavioral health research across multiple sites. One example of this work is found in the Warriors Research Institute (WRI). WRI's mission is to improve the quality of care available to military veterans and emergency responders via a program of scientific inquiry. Through BSWRI, WRI develops and disseminates new treatments for those suffering the sequelae of toxic or traumatic work events. In addition to providing and evaluating state-of-the-art experimental treatments, we train future generations of treatment providers in evolving evidence-based care. Additionally, WRI staff have been involved in over 100 presentations nationally and internationally. Transplant research: Our research efforts around transplantation take place at multiple sites including Baylor University Medical Center and Baylor Scott & White Medical Center - Temple. This research continues to hit major milestones and research firsts. BSWH's transplant program has completed 20 uterine transplants resulting in 13 healthy live births in the United States. BSWRI also has multiple trials underway studying transplant procedures and post-op care, as well as addressing transplant waitlists and organ shortages. These include an investigator-initiated study around HCV heart transplants and a similar study on the use of HCV liver transplants. Additionally, teams at BSWRI are studying therapeutic treatment options for patients currently on waitlists who experience overt hepatic encephalopathy and other common conditions resulting from the need for transplant. COVID Research: In response to the COVID-19 pandemic, BSWRI conducted laboratory, data collection, and clinical research studies to investigate transmission prevention, diagnosis, and treatment options for mild, moderate and severe COVID cases. BSWRI committed resources in the fight against COVID-19. A COVID Core group was created to rapidly open COVID clinical trials and further support such research. 22 studies were conducted across 6 different BSWH facilities of North and Central Texas. 5 were investigator initiated. Over 2,600 patients have been enrolled.

Return Reference	Explanation
Part I, Line 1a	Tax indemnification and gross-up payments-The organization provides tax indemnification where the BSW Holdings' CEO, COO or CFO determines there is justification to reimburse an individual for the tax impact on certain taxable, non-cash benefits provided to them. All tax indemnification payments provided are treated as taxable compensation. Four of the persons listed in the Form 990, Part VII, Section A, received this benefit during the tax year. Discretionary spending account-The organization provides eligible employees certain monthly expense allowances in lieu of reimbursement for actual expenses under the organization's business travel and expense reimbursement policy. This may include providing an auto expense allowance for business mileage for those who travel frequently in their personal vehicle or a cell phone allowance for individuals who are required to use their mobile phone for business purposes. All expense allowances are treated as taxable compensation. One person listed in the Form 990, Part VII, Section A, received these benefits during the tax year. Health or social club dues or initiation fees-The organization may reimburse eligible employees for dues for a health club and/or a social club where there is a bona fide business need for the membership. For example, as part of the organization's promotion of health, the organization will cover a portion of any employees' fitness center club membership dues paid to an affiliated entity that owns and operates a fitness center. All employees are eligible for this benefit. Such reimbursements are treated as taxable compensation to the extent any part of the membership is used for personal use. Two of the persons listed in the Form 990, Part VII, Section A, received this benefit during the tax year.
Part I, Line 3	Process for determining compensation: The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its ongoing success and growth. Thus, it must attract, retain and engage the highest quality officers and key employees to lead the organization and help the organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually. Total executive compensation is part of an integrated talent management strategy developed by the BSW Holdings Board of Trustees and its Compensation Committee to attract, motivate, and retain the best leadership resources for the organization. Executive compensation is determined pursuant to guidelines outlined in the intermediate sanction rules under IRC Section 4958 including taking steps to meet the rebuttable presumption standard of reasonableness under Treasury Regulation 53.4958-6, as summarized below. When making compensation decisions, the organization compares itself to similarly-sized, and structured businesses including other integrated health care service systems and other similarly-sized organizations, both locally and nationally. Each year the BSW Holdings Board of Trustees and the Compensation Committee, on behalf of the organization through reserved powers held by BSW Holdings, works directly with an independent compensation expert(s) to identify reasonable and competitive market rates as well as provide an annual review of the total compensation of the organization's top management officials and other officers and key employees to ensure total compensation is within a fair market range. The annual review included management reviewing all officers and key employees listed on the Form 990 during the current tax year. Any individual whose direct compensation exceeded the projected compensation from prior year, any new individual whose position has not been reviewed by the Compensation Committee during the prior 2 years, or any individual whose responsibilities or scope of operations expanded during the current year were reviewed by the Compensation Committee during the current tax year. The Compensation Committee is made up of members of the BSW Holdings Board of Trustees, who are independent, community volunteers. Guided by the information provided by the independent compensation expert(s), the Compensation Committee approves the annual process and methodology for setting fair market salary ranges, earned incentives, and/or benefit offerings for the organization's President, other officers and/or key employees to be comparable to similar organizations for similar services and/or positions. Furthermore, the Compensation Committee is charged with the responsibility of reviewing annually the major elements of the executive compensation program to assure designs remain consistent with the business needs, market practices, and compensation philosophy. As part of the decision making process, the Compensation Committee will often meet in executive session to discuss and review recommendations made by the independent compensation expert(s). No officer or key employee whose compensation is being reviewed is present during these discussions. All decisions are properly documented in the minutes of the meetings.
Part I, Line 4b	In order to recruit and retain key talent, BSW Holdings and certain tax exempt affiliates (BSWH) offers a supplemental non-qualified retirement plan to eligible employees. The plan provides an annual benefit (based on a percentage of compensation) to the employee that is paid to the employee on a future date upon vesting in the plan. The following individual(s) participated in and/or received payments (noted in parenthesis) from BSWH's supplemental non-qualified retirement plan during the tax year: Alejandro Arroliga, M.D., Elizabeth Cothran, Jaime Walkowiak, Jennifer Thomas, Michael Ramsay, M.D. (\$54,141), Renee Day, Amy Martin and Steven Newton.
Part I, Line 7	The organization has adopted and implemented BSW Holdings', the organization's ultimate parent, Annual Incentive Program to provide a market competitive total cash compensation incentive program that is designed to attract and retain key leaders and establish greater individual accountability and alignment to business performance. Payout targets are based upon a percentage of base pay and are developed by independent third party expert(s) using comparable market competitive data within the bounds of reasonableness and that are reviewed and approved by BSW Holdings' governing body. Payout levels are based upon a combination of system, entity, and individual performance using various metrics related to quality, patient satisfaction, employee retention, and financial stewardship. BSW Holdings' governing body may approve modifications to annual incentive awards provided under the program consistent with market comparability data.
Form 990, Schedule J, Part III	Supplemental Information: Governing Body Compensation The members of the governing body serve on a voluntary basis and receive no cash compensation from the organization for these duties as a member of the governing body. Some, but not all, members may have received modest benefits incident to their service on the board and/or multiple board committees or received compensation as an employee of a related organization. These benefits may include reimbursement for certain reasonable expenses paid on behalf of the member's spouse while accompanying the member on business travel on behalf of the related organization. All such benefits are treated as taxable compensation to the extent required by law and are reported in the Form 990 where applicable.

Form 990, Part VI, Section B, line 15	<p>Process for determining compensation: The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its ongoing success and growth. Thus, it must attract, retain and engage the highest quality officers and key employees to lead the organization and help the organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually.
