Name: Texas Health Presbyterian Hospital Kaufman

Form 990 (2019)

**Form 990, Part III, Line 4a:**

Texas Health Presbyterian Hospital Kaufman (THK) was opened in 1975 and is a 91 licensed bed hospital located in Kaufman, Texas. THK serves the rural community of Kaufman and the surrounding area. It offers a wide range of services including general surgery, ICU, Telemetry, medical surgical care, and a 24 hour emergency department. THK provides quality medical healthcare regardless of race, creed, sex, national origin, handicap, age, or ability to pay. The hospital provides care to persons covered by governmental programs including Medicare and Medicaid for reimbursement that does not always cover the cost of providing the care. Recognizing its mission to the community, services are provided to both financially indigent and medically indigent patients. To the extent reimbursement for services is below cost, THK recognizes the difference as charity care. Community benefit is also provided through many free programs to the community. These services are essential to provide complete healthcare to the communities they served. Some of these programs include Supported Senior Citizens in Kaufman County with free flu clinics, Health Fairs especially for Senior Citizens centers in Kemp and Kaufman, and community health fairs at local and surrounding service area schools. Community members were informed about such subjects as general health and high blood pressure. There was also blood pressure screening available free of charge, Matter of Balance Classes to Kaufman County Senior Citizens Monthly, and a Car Seat Fitting Station for the community. The hospital also supports the local community service area through volunteer time and monetary contributions. Programs sponsored include, but are not limited to, the local area school district, United Way, Meals on Wheels, Salvation Army's food program, Angel Tree, local churches and the Kaufman Food Bank. THK also has a close relationship with the community college TVCC and Texas Tech University pharmacy program. THK had 2,703 patient days, 1,083 discharges, 32,623 outpatient encounters, and 25,304 emergency room visits during the calendar year.

Form and Line Reference	Explanation
Texas Health Kaufman	<p>Part I, Line 3c - Patient Eligibility Patients with family income at or below 200% of applicable Federal Poverty Guidelines (FPG) may be eligible for free care if the patient lacks sufficient funds and assets to pay the out-of-pocket portion of their hospital bill. Patients with a family income above 200% of applicable FPG who have unpaid medical bills exceeding a specified percentage of the patient's annual gross income, as determined on a sliding scale based on FPG, may be deemed medically indigent and eligible for charity care. The patient may be eligible for a charity adjustment up to 100% of the unpaid balance of their hospital bill in excess of a specified patient responsible amount if the patient has insufficient funds/assets to pay his hospital bill without incurring an undue financial hardship. The patient responsible amount is based on a percentage of the patient's annual income in relation to FPG. A determination as to whether or not a patient has insufficient funds and/or assets to pay for purposes of determining both financial and medical indigence is made at the time a patient's financial assistance application is reviewed. Assets considered when determining eligibility include cash, stocks, bonds and other financial assets that can be readily converted to cash. An additional process to screen for charity patients using publicly available financial information is also in place for patients not submitting a financial assistance application. Part I, Line 7 Cost-to-Charge Ratio A cost-to-charge ratio is used to compute the amounts reported on Lines 7a-7c. The cost-to-charge ratio is derived from Worksheet 2 Ratio of Patient Care Cost-to-Charges, as found in the Schedule H Instructions. The amounts reported on Lines 7e-7i were computed using direct costs, as determined by a cash outlay. Part II - Community Building The organization participates in community building activities that aim to address the socio-economic factors that influence the overall health of individuals in the communities served. As identified in the community health needs assessment, there are areas of need that are not in alignment with the operations of a hospital system. Our volunteerism, collaborations and partnerships with various help organizations and various area coalitions help in addressing the socio-economic factors that are the backbone for many underlying health concerns. Part III, Lines 2, 3 &amp; 4 - Bad Debts Bad debt expense is not included for purposes of reporting community benefits. Each patient qualifying for charity care is treated as a charity patient and no charges related to that patient are included in bad debt expense. The hospital is part of a consolidated system of hospitals which operate under the name Texas Health Resources (THR). THR's annual audit is conducted on a system-wide basis with a single consolidated audit report issued for THR and its affiliates. The audited financial statements of THR, which include the activity of the organization, contain a footnote regarding Accounts Receivable and Net Patient Service Revenue that reads as follows: Patient service revenue is reported at the amount that reflects the consideration to which the System expects to be entitled in exchange for providing patient care. Healthcare services promised in the contract with a patient represent a bundle of goods and (or) services that is distinct and accounted for as a single performance obligation. The transaction price for the bundled goods and (or) services provided is estimated by reducing the total standard charges by variable price concessions, including contractual adjustments based on the terms provided by (in the case of Medicare and Medicaid) or negotiated with (in the case of managed care and commercial insurance companies) third-party payors, the System discount policies, and other implicit price concessions based on historical collections experience for uninsured and under-insured patients who do not qualify for financial assistance. A portfolio approach by major payor categories and types of service is used to estimate the historical collections experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. Portfolio collection estimates are updated at least quarterly based on actual collections experience. The System believes that revenue recognized by utilizing the portfolio approach approximates the revenue that would have been recognized if an individual contract approach was used. Under THR's financial assistance policy, the Tax-Exempt Hospitals, THRW, and Texas Health Physicians Group (THPG) provide care to patients without charge or at amounts less than their established rates if the patient meets certain established criteria. The consolidated joint venture hospitals and healthcare entities have similar financial assistance policies or have adopted the THR financial assistance policy. As the System</p>

Form and Line Reference	Explanation
Texas Health Kaufman	<p>m does not pursue collection of amounts determined to qualify as financial assistance, tho se amounts are not reported as patient service revenue or patient accounts receivable. Rev enue related to providing care to patients is recognized as the performance obligation is satisfied over the period of time the patient is receiving treatment, as the patient is si multaneously receiving and consuming the benefits provided by the System. The performance obligation is generally satisfied over an average period of less than five days for inpati ent services and one day for outpatient services. Generally, patients and third-party payo rs are billed within days after the services are performed and (or) the patient is dischar ged. The transaction price related to unsatisfied or partially unsatisfied performance obl igations at the end of the reporting period primarily relate to inpatient acute care servi ces for patients who remain admitted at that time (in-house patients). As of December 31, 2019 and 2018, contract assets of \$33,617,000 and \$38,520,000, respectively, were recorded in patient accounts receivable on the consolidated balance sheets. Patient accounts recei vable is reported at the amount that reflects the consideration to which the System expect s to be entitled in exchange for providing patient care. The primary collection risks rela te to uninsured patient accounts, including patient accounts for which the primary insuran ce company has paid the amounts covered by the applicable agreement, but patient responsib ility amounts remain outstanding. Implicit price concessions relate primarily to amounts d ue directly from patients based upon managements assessment of historical write-offs and e xpected net collections considering business and economic conditions, trends in health car e coverage, and other collection indicators. Patient accounts are monitored and, if necess ary, past due accounts are placed with collection agencies in accordance with guidelines e stablished by management. Accounts are written off when all reasonable internal and extern al collection efforts have been performed. Estimated implicit price concessions of \$437,78 5,000 and \$379,437,000 were recorded as reductions to patient accounts receivable at Decem ber 31, 2019 and 2018, respectively, on the consolidated balance sheets. Part III, Line 8 - Medicare Shortfall The state of Texas treats any Medicare shortfall as a community benef it for meeting the state statutory requirements for charity care &amp; community benefit. For state purposes, the shortfall is computed by comparing actual Medicare reimbursements with the estimated cost the hospital incurs in providing these services to Medicare patients. Cost is determined by applying a cost-to-charge ratio (with costs determined in accordance with generally accepted accounting principles) to billed charges. The shortfall amount re ported to the state of Texas for 2019 is \$5,327,462. Sch H requires a different method to calculate the Medicare shortfall shown on Part III, Lines 5-7. Part III, Line 9b - Debt Co llection During the year, standard collection procedures were in place and uniformly appli cable to all patient accounts. Except to the extent a patient receives a recovery from any third party or other source, no attempts are made to collect unpaid charges from patient accounts approved for adjustment under the Financial Assistance Policy. Procedures for Monitoring Grants	Texas Health Dallas (THK) is a member of the Texas Health Resources (THR) Healthcare system. The majority of the grants distributed by the system are to related tax exempt organizations. The hospital does not specifically monitor the use of grants paid to related organizations since THR administration monitors the use of these grants on a system basis for all members of the THR healthcare system. Grants to non-related tax exempt organizations are generally given to entities that are in the hospital's community and/or service area or to certain organizations which will specifically impact the hospital's community. These grants are typically monitored by hospital personnel who are working closely with the non-related nonprofit organization.

Return Reference	Explanation
Schedule R, Part V, Line 2 - Related Transactions	<p>Texas Health Resources (THR) is the parent organization in a large healthcare system made up of both wholly owned entities as well as related controlled joint ventures as listed on Schedule R. THR's role is to plan, manage and coordinate the activities of the affiliated healthcare system in order to maximize opportunities to deliver cost effective quality medical care to residents of north central Texas. THR provides direction and oversight to its wholly owned affiliates through centralized services. They also provide oversight for the controlled joint ventures. As an integral part of providing centralized services to the affiliates, THR maintains intercompany receivable/payable accounts, most of which do not fall within the scope of IRC Section 512(b)(13). The range of centralized services provided by THR include information services, managed care contracting, Human resources, revenue cycle, billing and collections, patient access/admissions, legal, tax, compliance, supply chain, quality, business development, insurance, treasury, marketing, general accounting, real estate services, coding, transcription and strategic planning. In addition, THR does daily cash sweeps of all controlled tax exempt entity cash accounts. As a result, THR has numerous daily transactions with controlled tax exempt entities, none of which fall within the scope of IRC Section 512(b)(13). A management fee is charged for the centralized services and reported on Form 990, Part VII, Section B as a professional services fee. Transactions with related tax exempt organizations falling within the meaning of centralized services as described above, are not listed on Schedule R, Part V, Line 2.</p>
