Form 990 (2016)

Form 990, Part III, Line 4a:

GFI's Innovation Department creates new good food companies from scratch, helps existing startups become more successful, and generates direct competition with conventional animal products. GFI also fosters and supports innovation by collaborating with universities for entrepreneurship, synthetic and plant biology, and tissue engineering to create private and public sector activity focused on advancing plant-based and clean meat. Our goal is to ensure that far more top scientists and entrepreneurs will start or join plant-based and clean meat companies, that more companies are founded, and that more research and development occurs in top research centers for tissue engineering and plant biology.

Form 990, Part III, Line 4b:

GFI's Science & Technology Department advances and promotes the science of plant-based and clean meat technologies. In 2016, GFI's SciTech team launched investigations into the best opportunities and most critical challenges in plant-based and clean meat R&D. We shared this knowledge with researchers, entrepreneurs, and investors to accelerate the growth and success of transformative food innovations. GFI's scientists are the global experts in this sector and work to ensure that the most delicious and cost-competitive alternatives to conventional animal products appear on the market as quickly as possible.

Form 990, Part III, Line 4c:

GFI's Policy Department is focused on ensuring a clear regulatory pathway to commercialization of clean meat. We also work with government agencies and elected officials to ensure that plant-based meat, dairy, and eggs are competing on a level regulatory playing field, both with one another and with their animal-based counterparts. In 2016, our policy team filed a flurry of FOIA requests and two lawsuits to help plant-based alternatives achieve maximum success in a market dominated by powerful animal-ag industries. We also provided vital pro bono legal support for at least a dozen good food companies.
