Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	CATHOLIC HEALTH INITIATIVES COLORADO's financial information is included in the consolidat ed audited financial statements of CommonSpirit Health, a related organization. CommonSpir it Health's ASC 740 footnote for the year ended June 30, 2020, reads as follows: CommonSpir rit has established its status as an organization exempt from income taxes under Internal Revenue Code Section 501(c)(3) and the laws of the states in which it operates, and as suc h, is generally not subject to federal or state income taxes. However, CommonSpirit's exem pt organizations are subject to income taxes on net income derived from a trade or busines s, regularly carried on, which does not further the organizations' exempt purposes. No sig nificant income tax provision has been recorded in the accompanying consolidated financial statements for net income derived from unrelated trade or business. CommonSpirit's for-pr ofit subsidiaries account for income taxes related to their operations. The for-profit sub sidiaries recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of their assets and liabilities, along with net operating loss and tax credit carryovers, for tax positions that meet the more-likely-than-not recognition criteria. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. Income tax interest and penalties are recorded as income tax expense. For the years ended June 30, 2020 and 2019, CommonSpirit's taxable entities recorded an immaterial amount of interest and penalties as part of the provision for income taxes. CommonSpirit's taxable entities did not have any material unrecognized income tax expense as of June 30, 2020 and 2019. CommonSpirit reviews its tax positions quarterly and has determined that there are no material uncertain tax positions that require recognition in the accompanying consolidated financial statements.

Facility A, 1	Facility A, 1 - ALL FACILITIES. In order to assess the needs of our community, we created a hospital subcommittee made up of key stakeholders and individuals who represented the broader interests of our community. Public Health representatives attended every meeting and provided input into the process of narrowing the selection of health issues. Once health needs were prioritized, we determined groups and individuals appropriate for focus groups, being sure to solicit input from underserved or minority groups

within the communities we serve. These focus groups helped identify particularly important needs as seen by our communities, help us identify gaps in knowledge, and understand current external efforts

around health needs that could be improved by healthcare participation.

Form and Line Reference	Explanation
Schedule H, Part V, Section B, Line 11 Facility A, 1	Facility A, 1 - PENROSE HOSPITAL. Penrose-St Francis and community stakeholders identified three significant needs in their community which they prioritized and focused on. The needs were Obesity, Intentional Injury-Youth Suicide and Access to Care. For Obesity, three goals were utilized and then implemented to use evidence-based practice approaches of breastfeeding and the incorporation of education and access for disparate communities to healthy eating active living. To achieve these goals, four activities were initiated regarding breastfeeding, and three activities for education and each healthy eating active living. The need of Intentional Injury-Youth Suicide had two goals to develop coordinated efforts to promote and implement programs to identify risk and early indicators of mental, emotional and behavioral problems among youth and ensure referral to appropriate resources. The second goal was to develop coordinated effort to implement and promote Penrose-St. Francis internal and external community trainings in Adverse Childhood Experiences (A.C.E.), Mental Health First Aid (MHFA) and Youth MHFA trainings to identify signs of depression and suicide for early intervention and stigma reduction. Multiple activities were created and measured the progress. The last prioritized need, Access to Care had two goals of increasing the number of El Paso County residents who receive assistance in the enrollment process leading to an insurance product; and increase health insurance and health care literacy for newly enrolled residents needing assistance navigating the health care system. Two activities for each goal were used to implement changes toward Access to Care. All three prioritized needs were addressed by Penrose-St. Francis provided benefits related to improving the health of our community through multiple programs. ANTHONY HOSPITAL. St Anthony Hospital (SAH) and community stakeholders Schedule H, Part V, Section B, Line 11 identified four significant needs in their community which they prioritized and focused on. The Facility A, 2 prioritized needs were Behavioral Health, Healthy Eating Active Living (HEAL), Acce ss to Care and Injury Prevention. The process followed to address the needs, was to create several goals for each need, and then implementing specific activities and metrics to mea sure progress of address the need. Specifically, SAH's goal for Behavioral Health were to decrease rate of Mental Health Hospitalizations by 3% and percentage of adults with a lack of social or emotional support from 18% to 17% among people living in St. Anthony Hospita I service area. This was to be done by building community and organizational capacity and care team skills to promote mental wellbeing, improving utilization of evidence-based prac tices in mental health screening, promote care team training, and increase awareness and r eferrals to appropriate mental health resources in partnership with the community. Three of the five goals were improve the detection and treatment of mental health needs through the utilization of evidence based screening tools in our SAH service area; increase awarene ss of and improve referral to mental health resources (leverage/ implement relationships s o care systems can work with community partners); and build primary prevention strategies through providing positive protective factors for youth in partnership with community orga nization. HEAL's need was targeting to increase the percent of population at a healthy BMI and decrease incidence of Type 2 Diabetes by building community and organizational capacity and care team skills to promote healthy weight and lifestyles. Reduce obesity and impro ve utilization of evidence-based practices in screening; promote care team training; and i ncrease awareness and referrals to appropriate resources in partnership with the community. Two of the five goals for HEAL were to increase utilization of evidence-based practices to screen for health factors and indicators for obesity and related conditions; and increa se awareness of and improve referral to healthy eating active living resources at points of service. Access to Care need was to increase the percentage of adults with a regular doc tor and percent people who are insured. One of the goals of the three created was to incre ase the number of people enrolled into Medicaid or Commercial Coverage. Injury Prevention need was addressed by decreasing the number of preventable injuries in the community and t hose which come into St. Anthony Hospital. The related goals to address were decrease the number of hospitalizations due to a preventable fall by increasing the number of people re ached through evidence-based programming by 20%. And decrease the

MERCY REGIONAL MEDICAL CENTER (MRMC) AND COMMUNITY STAKEHOLDERS IDENTIFIED THREE SIGNIFICANT NEEDS IN THEIR COMMUNITY WHICH THEY PRIORITIZED AND FOCUSED ON. THE PRIORITIZED NEEDS WERE OBESITY, MENTAL HEALTH/SUBSTANCE ABUSE AND ACCESS TO CARE. THE PROCESS FOLLOWED TO ADDRESS THE NEEDS WAS TO CREATE SEVERAL GOALS FOR EACH NEED, AND THEN IMPLEMENTING SPECIFIC ACTIVITIES AN METRICS TO MEASURE PROGRESS OF ADDRESS THE NEED. OBESITY: ALTHOUGH OUR OBESITY RATES ARE NOT WORSE THAN THE STATE AVERAGE, WE KNOW THE TRENDS ARE GOING IN THE WRONG DIRECTION. IN OUR COMMUNITY, 16.5% OF ADULTS ARE OBESE AND 31% ARE OVERWEIGHT. WE ALSO KNOW THAT IF WE CAN REDUCE OBESITY RATES, IT WILL HAVE A POSITIVE EFFECT ON SOME OF THE DISEASE PREVALENCE, SUCH AS HEART DISEASE, DIABETES AND CANCER. TWO GOALS OF THE FOUR CREATED WERE TO INCREASE SCREENING OF PATIENTS AND ASSOCIATES FOR HEALTH FACTORS AND INDICATORS FOR OBESITY AND RELATED CONDITIONS; AND TO IMPLEMENT CONTINUING EDUCATION FOR ASSOCIATES TO INCREASE KNOWLEDGE OF CLINICAL TOOLS, METHODS, AND COMMUNICATION STRATEGIES FOR OBESE OR AT-RISK PATIENTS. MENTAL HEALTH AND SUBSTANCE ABUSE: WE HAVE SEEN A DRAMATIC INCREASE IN THE NUMBER OF PATIENTS WITH MENTAL HEALTH AND SUBSTANCE US DIAGNOSES IN OUR EMERCENCY ROOM. ADDITIONALLY, THE SUICIDE RATE IN OUR COMMUNITY IS 18. PER 100,000, WHICH IS HIGHER THAN THE STATE AVERAGE OF 17.2 PER 100,000, AND MUCH HIGHER THAN THE STATE AVERAGE OF 17.2 PER 100,000, AND MUCH HIGHER THAN THE STATE AVERAGE OF 17.2 PER 100,000, AND MUCH HIGHER THAN THE STATE AVERAGE OF THE VILLUATION OF MENTAL/BEHAVIORAL HEALTH SCREENING TOOLS THROUGH SCREENING MERCY FAMILY MEDICINE (MFM) PATIENTS FOR DEPRESSION AND SUBSTANCE USE. ALSO, MRMC PROMOTED CARE TEAM TRAINING AND EDUCATION OF ASSOCIATES IN EVIDENCE-BASED PRACTICES; AND SUPPORTED PARTISES IN MENTAL HEALTH BY BUILDING PROTECTIVE FACTORS WITHIN THE COMMUNITY. ACCESS TO CARE: IN ADDITION TO THE ABOVE PRIORITIZED HEALTH NEEDS, CENTURA HEALTH AND MERCY SECONIZE THAT ACCESS TO

MARY-CORWIN MEDICAL CENTER. St. Mary-Corwin Medical Center (SMC) and c ommunity stakeholders identified three significant needs in their community which they pri oritized and Facility A, 4 focused on. The prioritized needs were Obesity/Diabetes, Chronic Lung/Respira tory Disease and Behavioral Health. The process followed to address the needs, was to crea te several goals for each need, and then implementing specific activities and metrics to m easure progress of address the need. Obesity: This is a priority because of the prevalence of direct effects and indirect effects of obesity and diabetes on commodities such as car diovascular, hypertension, and would care among the population in Pueblo. The CHNA sub-com mittee unanimously found that we have the capacity to effect change in the current adult p opulation and upstream with resources currently available in the community. Addressing foo d insecurity by developing multiple sources of access to healthy food, particularly in zip codes 81004 and 81003, two local food deserts/swamps, along with an aggressive food presc ription program supported and tracked by local providers, plus upstream education of school-aged children will be the primary initiatives for the next three years. Two of the goals , of four total, are to work upstream to prevent diabetes through expansion of existing community programs; and to provide short- and long-

term education in best organic gardening practices and food safety protocols for the emerging interest groups who are organizing ne ighborhood, agency, school and church community gardens. Chronic Lung/Respiratory Disease: This is a new priority because the CHNA sub-committee determined that Pueblo has particul ar environmental factors emanating from the local steel mill and low health literacy regar ding home hygiene related to healthy air throughout the community. The resources are readily available to influence a downward trend in COPD and asthma related illness among adults and children. Hospital initiatives will include foci on testing for the genetic Alpha mar ker that predetermines COPD and partnering with the local DOTS program sponsored by the Fi re Department, EMS, police and code enforcement to help families find resources to make their home air quality safer. Two goals implemented are to identify older adolescents and yo ung adults at genetic risk of COPD and to increase healthy home hygiene for individuals at risk for lung disease. Behavioral Health: This need is a priority because the prevalence of mental health issues due to generational poverty and increasing

unemployment and disability rates. The CHNA sub-committee discerned that positively impacting

mental health will satisfy the increasingly vocal demand for these services in the community and will

also im pact the work force and therefore economic development positively in the long-run. There a re

Schedule H, Part V, Section B, Line 11 Facility A, 5	Facility A, 5 - ST. FRANCIS MEDICAL CENTER. Penrose-St Francis and community stakeholders identified three significant needs in their community which they prioritized and focused on. The needs were Obesity, Intentional Injury-Youth Suicide and Access to Care. For Obesity, three goals were utilized and then implemented to use evidence-based practice approaches of breastfeeding and the incorporation of education and access for disparate communities to healthy eating active living. To achieve these goals, four activities were initiated regarding breastfeeding, and three activities for education and each healthy eating active living. The need of Intentional Injury-Youth Suicide had two goals to develop coordinated efforts to promote and implement programs to identify risk and early indicators of mental, emotional and behavioral problems among youth and ensure referral to appropriate resources. The second goal was to develop coordinated effort to implement and promote Penrose-St. Francis internal and external community trainings in Adverse Childhood Experiences (A.C.E), Mental Health First Aid (MHFA) and Youth MHFA trainings to identify signs of depression and suicide for early intervention and stigma reduction. Multiple activities were created and measured the progress. The last prioritized need, Access to Care had two goals of increasing the number of El Paso County residents who receive assistance in the enrollment process leading to an insurance product; and increase health insurance and health care literacy for newly enrolled residents needing assistance navigating the health care system. Two activities for each goal were used to implement changes toward Access to Care. All three prioritized needs were addressed by Penrose-St. Francis provided benefits related to improving the health of our community through multiple programs. SPSF committed staff and grants to two low income zip-codes to fund various programs, more than 920 and resources to the community for \$1,303,808 and 817 people. Cancer programs also supported the community via community outreach programs such as education and counseling: screening events: self-help classes: women's services, and support groups; provided over 2,555 families with room nights and services equating to \$262,988 at the John Zayn Guest House for patient's families regardless of the ability to bay: dedicated over \$89.000 in the areas of nutrition services, prescription pricing, and wellness

St. Anthony Summit Medical Center (SUM) and community stakeholders identified two significant needs in their community which they prioritized and focused on. The prioritized needs were Behavioral Health and Intentional Injury Prevention. The process followed to address the needs, was to create several goals for each need, and then implementing specific activities and metrics to measure progress of address the need. Behavioral Health: Three of the goals were to increase people who are able to identify, understand and respond to those in mental health and substance abuse crisis through training about identification and resources through Mental Health First Aid (MHFA) and other resources; increase the percent of people screened for substance abuse and mental health issues in healthcare and other related community settings; and to increase the number of appropriate referrals to available resources within the community. Intentional Injury Prevention: The three goals for this need were to provide injury prevention education to 120 people. Decrease long-term effects of TBI and increase older adult independence and physical activities; to decrease long-term effects of Traumatic Brain Injuries (TBI's); and to increase older adult independence and physical activity/wellness through injury prevention strategies. The prioritized needs were Heart Disease, Lung Disease and Obesity/Diabetes physical a ctivity and nutrition. The process followed to address the needs, was to create several go als for each need, and then implementing specific activities and metrics to measure progress of address the need. Heart Disease: STM prioritized Heart Disease because in Fremont Co unty, 5.1% of adults have heart disease, compare to 2.7% of adults in the state. This is roughly twice the percentage of adults with Heart Disease compared to the Colorado State a verage. One of our goals is to increase the amount of cardiology services not only at St. Thomas More but also throughout Fremont County. We have the cardiology services not only at St. Thomas More but also throughout Fremont County. We have the cardiology cardiovascular education at community events and health fairs throughout the year, and are recruiting for a full-time, non-invasive cardiologist. Lung Disease: St. Thomas More H ospital also prioritized lung disease. Lung Disease is a priority for St. Thomas More beca use Fremont County has almost double the amount of tobacco users than the Colorado State a verage, with almost half of our 25 to 34 year olds using tobacco products regularly. In our community, 29.1% of adults report that they currently smoke. The Colorado percentage of smokers is much lower, at 16.8%. The mortality rate for lung disease in our community is 6 0.5 per 100,000, higher than Colorado's rate of 49.8. This is likely due to the higher rat es of smoking in our community. The goal was to decrease tobacco use in Fremont County by providing education regarding tobacco cesation and tobacco health risks at community even ts such as health fairs and partner with local businesses to make their facilities tobacco free. Obesity/Diabetes physical activity and nutrition: St. Thomas More a
