Name: Tucson Medical Center

Form 990 (2017)

Form 990, Part III, Line 4a: Governed by a volunteer community board of trustees, Tucson Medical Center is closely tied to and focused on the community. Tucson Medical Center is dedicated to

delivering "caring, personalized, quality healthcare to patients and their families in an environment that is supportive, education-focused and compassionate" Improving the healthcare of the community is the core intent of all our efforts and the basis of our mission. Earnings are used to improve our facility, patient care, medical education, training and research TMC provides care to those with acute health care needs regardless of their ability to pay for the services needed. Likewise, Tucson Medical Center provides extensive outpatient clinical services such as laboratory, radiology and therapies to name a few. Many of these services are provided to patients who are unable to pay for services TMC also participates in the Pima Community Access Program that provides access to health services at significant discounts to low income families. Unpaid Costs TMC provides services to patients covered by AHCCCS and other public programs for low income people. This is the shortfall created when a facility receives payments that are less than the cost of caring for public-program beneficiaries Uncompensated Cost of Care for Charity Care and Bad Debt Charity care is free or discounted health services provided to people who can demonstrate that they do not have the means to pay the full cost of care and who meet the organizations financial-assistance policy criteria Bad debt consists of services for which the hospital anticipated but did not receive payment For purposes of community benefit reporting, charity care and bad debt are reported in terms of costs, not charges. For more information about TMCs charity care policy, visit www tmcaz com. Outreach & Education. This figure includes

community benefit programs and activities that provide treatment or promote health and healing as a response to identified community needs. These programs and activities help improve access to health care services, enhance the health of the community and advance medical knowledge DISCOUNTS FOR UNINSURED PATIENTS Self-pay patients who do not have health insurance are not in the same position as insurance companies to negotiate reduced rates. In an effort to address this disparity, TMC reduces a patients bill by half if the patient is without any insurance coverage. Depending on a patients income, other discounts may apply as part of the TMC Community Care program Please see our website to view our full Report to the Community www tmcaz com

Part V, Line 5 - Account Input from Persons Who Represent the Community	In late 2014, Tucson Medical Center joined forces with Tucsons neighboring hospitals, as w ell as the Pima County Health Department and other community stakeholders on the 2015 Pima County Community Health Needs Assessment The Affordable Care Act requires tax-exempt, non profit hospitals to complete a community health needs assessment every three years and to implement strategies to address the needs identified in the report The resulting 96-page a ssessment draws from county health rankings, the Arizona Department of Health Services Vit al Statistics, Primary Care Area Statistical Profiles and the U S Census Bureau Addition ally, community input was included following interviews, focus groups, community forums and a web-based community health survey Following the completion of the assessment, TMC deve loped an implementation plan to respond its findings. If you have specific input on this report that you would recommend TMC consider, please email communications@tmcaz comThe 2010 Patient Protection and Affordable Care Act requires that nonprofit hospitals conduct a community health needs assessment every three years and adopt an implementation strategy to meet the outstanding community health needs identified in the assessment as a condition of maintaining the institutions federal tax exemption Tucson Medical Center has elected to prepare this assessment andimplementation strategy in fiscal year 2015-16 and will use the documentas a planning tool to help create strategic initiatives regarding medical services and community outreach efforts in order to meet critical health needs of members of our community whose health is at-risk Tucson Medical Center would like to thank the community partners whocollaborated on the Community Health Needs Assessment, includingBanner-Universi ty Medical Center, Carondelet, El Rio Community Health Needs Assessment, includingBanner-Universi ty Medical Center, Carondelet, El Rio Community Health Needs Assessment and the input of stakeholders fr om throughbane to organization in a se

If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc. Form and Line Reference Explanation Changes in implementation strategy goals. Agility trumps rigidityGiven the dynamic and complex nature Part V, Line 11 - Explanation of Needs Not of health care, change is inevitable as we adapt to fluctuations in the health care environment. In Addressed and Reasons Why recalibrating our plans to move forward as new information and opportunities surfaced, TMC did not undertake some of the strategies outlined in the initial implementation plan At the time of the report, TMC was exploring the creation of the Green Valley Medical Center, a 32-bed acute care hospital After due diligence, we determined that the required investment was too much for a community hospital to bear At the time of the report, TMC was planning to develop its own infrastructure that would enhance continuity of care by allowing information to be shared with providers across the continuum, from primary care doctors, to hospitals, nursing homes and rehabilitative facilities. After much analysis, it was determined that putting efforts into a statewide exchange system would be more valuable to the community than developing our own internal exchange, which would have had more limited communication power. As outlined in the Access to Care section above, TMC continues to be on the leading edge of health care information technology and remains committed to ensuring we have the right tools in place to create a 21st century health care delivery system Palo Verde Behavioral Health The implementation plan stressed Palo Verde Hospitals longstanding history of providing mental health services in the community. As outlined in the Mental Health section above, although TMC has long valued the service provided at Palo Verde, we also recognized that selling Palo Verde would allow it to thrive in the hands of a company that specializes in behavioral health services. ConclusionAs a non-profit, community hospital that is locally governed and celebrating its 70th year of serving Southern Arizona, TMC is proud of its important role in strengthening healthcare throughout the region. Whether setting patients on the road to recovery or providing tools to community members to help them retain their good health, TMC is committed to acting with purpose to fill gaps in service and address community
