Name: League to Save Lake Tahoe

Form 990 (2018)

Form 990, Part III, Line 4a:

Climate change, the warming of our planet, has local impacts in and around the Lake Tahoe Basin that dramatically impact this place we all love. For instance, scientists expect that we will see more precipitation falling as rain rather than snow and have more intense and fierce storms. These changes in our historic weather patterns will cause more sediment to runoff from our roads, which in turn will decrease the clarity of our crystal clear lake. In addition, our take-your-breath-away cool waters are warming up. The water temperature in Lake Tahoe has warmed nearly one degree since 1970 and that warming has been 10 times faster over the past four years. That change in temperature is making the climate more hospitable to aquatic invasive plants and algae growth. Both of which threaten our Lakes ecological health and the Lakes clarity. Additionally, scientists project more severe fires wildfires throughout the West and in the Tahoe. Sadly, that trend has continued with the largest wildfire in Californias history burning just an hour and a half east of Tahoe. As outlined above, climate change is a real threat to Lake Tahoe. The League to Save Lake Tahoe is taking a comprehensive and scientific approach to safeguarding Lake Tahoe. We envision a resilient and brilliant Lake Tahoe and are using all tools at our disposal from restoration of native wetlands to taking on a strong leadership role. Our successes through our four focal campaigns are outlined below. Restoration of wetlands and habitat. Healthy forests act as natural pollution filters to Keep Tahoe Blue. We host community restoration days like Tahoe Forest Stewardship Days where volunteers can do hands on work to protect Lake Tahoe. In past years, these events have not only been extremely popular they have also been extremely effective in protecting threatened plants, restoring stream banks and collecting thousands of pounds of trash. In 2018 we oEngaged 150 volunteers in hands on restorationoRestored/planted 6,100 trees and removed 850 invasive treesRemoved 404 lbs of invasive weedsstabilized 3,750 feet of stream bank and restored 14.4 acres oSecured state funding for restoration and other environmental projects in Tahoe through Prop 68 in CA which passed in June of 2019Sponsored Pop 3 in CA which failed to pass the November electionsContinued to lobby for funding through federal Lake Tahoe Restoration ActControlling weeds. Aquatic weeds have already become established in Lake Tahoe and are spreading rapidly. To keep track of these alien-to-our-lake-plants, we created an app that visitors and citizen-scientists can use to help us identify where weeds are taking hold. Our in-house scientists are then able to monitor weed outbreaks and test new technologies to combat their spread. Our hope is to be able to quickly identify problem areas in the Lake and deploy tested technology to control weeds, protecting the Lakes clarity. In 2018 we oCreated an app that visitors and citizen-scientists can use to help us identify where weeds are taking hold. Our in-house scientists are then able to monitor weed outbreaks and test new technologies to combat their spread oInstalled a bubble curtain at the mouth of the Tahoe Keys to prevent the spread of aquatic invasive weedsFound 7 new infestations of weeds that had spread in Lake Tahoe and worked with agencies and volunteers to removeoCertified 532 volunteers who completed almost 900 surveysoIn the Tahoe Keys we Installed bubble curtain at mouth of TKPOA channel into Lake TahoeFinalized Laminar Flow Aeration project so can be installed in spring 2019Began work on the Tahoe Keys Lagoon Restoration Stakeholder ProcessProtecting our Shoreline. Tahoes shoreline beauty is deteriorating rapidly in some areas. Algae blooms, sediment, water weeds, and non-native clams are big problems. The shoreline ecosystem is rapidly changing. Trash and graffiti mar beaches and boulder areas. In 2018 the League helped to protect our Shorelines by oEnsuring the adopting of a new Shoreline Plan which Required agreements between jurisdictions to enable enforcementImproved educational program with smartphone appIncluded regulations for marinas and boat rentals along with incentives for environmental improvementDetailed plans that for climate change adaptationoLead a successful campaign to ban Polystyrene in the City of South Lake Tahoe that was supported by our data from our trash cleanupoUsed KTB cleanup data to inform and pass a polystyrene ban that went into effect Oct Fighting pollution. Stormwater runoff is the largest source of pollution that degrades the Lakes clarity. Our in-house scientists train local citizens, school groups and community organizations to be watchdogs in charge of monitoring pollution, so we can stop it before it enters our Lake. We also support efforts to reduce greenhouse gases emissions that cause climate change. Our vision for Tahoe is one where the general public, visitors, core volunteers, community members and better businesses are all an active part of the solution to protecting our Lakes clarity. Most recently, we were able to bring alternative transportation methods like Lime bikes and microtransit like Chariot to South Lake. These smart transportation ideas encourage visitors and locals to use greener methods of transportation. Our transportation and stormwater accomplishments in 2018 oBike and scootershare programs Our bikeshare service came back and expanded service in the South Shore including electric scooters in the fleet The program employed 40 local employees218,131 miles were ridden on bikes and scooters which saved 193,481 lbs of CO2oWe trained 17 new Pipe Keepers through our Pipe Keepers citizen science program and completed the first annual Biannual Basin Blitz. We also engaged Pipe Keeper volunteers in new online forms. 40 pipe assessments were conducted and samples analyzed.

990 Schedule O, Supplemental Information

Return Reference	Explanation
Form 990, Part III, Line 2 New Services	<p>Although our general programmatic priorities and focus did not change in 2018, we did design and implement a pilot microtransit program aimed at improving Lake Tahoes traffic issues and associated impacts on water quality. Our objectives were to launch an innovative summer shuttle pilot project designed to support local transportation goals, gather ridership and user data, leverage public/private partnerships, and demonstrate proof of concept. After substantial research and deliberation, we selected Chariot, a subsidiary of Ford, to operate dynamic fixed route microtransit service on the south shore. The League to Save Lake Tahoe (the League) contracted directly with Chariot to ensure implementation of this service. Before launching the pilot service, the League worked closely with regional transportation planners to evaluate existing market conditions and determine where microtransit would provide the greatest mobility benefit to Tahoes travelers. Using data on activity density by time of day, dispersion of transit-dependent population groups, and initial ridership estimates, planners designed a route. The route was dubbed the Blue Line, which was designed to target residents and visitors moving within the tourist core with the added benefit of supplementing frequency along Hwy 50 and Pioneer Trail where public transportation provided service only once per hour. The League staff acted as the liaison for the pilot and conducted all planning, relationship building and guidance for the launch. We also took on the liability of cost and other resources necessary for the program to run for the three-month duration. Its successes including data collection, finding solutions to current policy barriers, offered an attractive alternative to the private automobile and building a new coalition of public/private partnerships to continue to work on implementing solutions to our transportation issues.</p>

Form 990, Part VI, Line 11b Form 990 Review Process	<p>The tax return is prepared by an outside accounting firm. After completion of said returns, the organization is sent a draft of the tax returns to be reviewed and examined. The organization makes copies of the returns and distributes to those individuals charged with governance. Those individuals at that time can review and if applicable discuss any line items in the return with the accountant who has prepared the return. If all items are found to be acceptable, an authorization is signed and provided to authorize the outside accounting firm to process, sign and provide copies of the returns to be filed (paper or electronically) with the designated governmental agencies. The tax returns are then signed by the organization, stamped and mailed with certified return receipt or the signed form 8879 is provided to the outside accounting firm allowing electronic filing.</p>
