

FSR.2 Lesson Guide

First Semester Review, part 2

Penguin Bay Biology

- Biology Class, Simplified -

Review Activity

1. Divide the students into two or more teams.
2. Give each student a personal whiteboard or blank sheets of paper.
3. Using the First Semester Study Guide, part 2 as a reference, ask one question at a time.
4. Once each student has written their answer – without talking to their neighbor or looking at their board/paper – ask the students to reveal their answers. Each student that writes the correct answer on their whiteboard or sheet of paper earns 1 point for their team.
5. Once you have a good feel for where the students need additional help, conclude the game and tally up the points.
6. As an incentive for the students to stay familiar with their notes, consider giving each student in the winning team a 100 as a quiz or homework grade.

Tip: Encourage student involvement by allowing each team to choose its name.

Study Guide

1. Pass out the First Semester Study Guide, part 2 and review the areas that your class seemed to falter on during the review activity.

Homework

1. Instruct the students to review their study guide in preparation for the exam.
