

Resource Pack

PENGUIN BAY BIOLOGY

Getting Started

What you Have

Congratulations on downloading our resource pack! We hope you enjoy using the materials as much as we enjoyed creating them.

We've provided you with a selection of our curriculum, covering a range of topics and styles of activity.

You're free to modify anything you want in the Word files, they're not locked or restricted in any way.

Using the Material

These worksheets and activities are intended to be used as reinforcements during your class. They offer a great way to give your students a break from lecture or give you a much-deserved break from making curriculum!

They're good old-fashioned worksheets; to the point, not too long but not just filler and they look really nice to boot.

Organization

As a bonus, we've included our curriculum map to help you see where in the year the free resources will fit.

We suggest printing out the curriculum map and a copy of each activity. Placing them in a planning binder organized by unit will give you a great starting framework for the school year.

Get in Touch

Don't forget, if you have questions or comments you can contact us at support@penguinbaybiology.org Happy Teaching!

A Total Solution

Comprehensive Resources

Our full curriculum gives you every resource you need for every day of class.

- PowerPoints
- Activities
- Micro-labs
- Full lab days
- Bell work
- *And many more*

Awesome Time-Savers

We're creating some amazing features for our members. When we're done you'll be able to easily put your class online, get rid of paper and grade (almost) zero assignments by hand!

These are just a few of the platforms we're integrating with:

- Google Forms
- Quizlet
- Zipgrade

Join for Free!

If your school has money for curriculum purchases you can join for free and have everything you need for class. Just talk with your administrator and submit a P.O. here:
