

2026 Drop/Replacement List

Each year we evaluate hundreds of new plants in our trial gardens to find the most unique, beautiful, robust, and sustainable plants to add to our product line.

Likewise, we also need to review our current product offerings for plants that need to be dropped- when we drop a plant, it is usually for one of the four following reasons: We've introduced a new variety that has outperformed something we currently offer, we are no longer able to source the plant material, poor performance, or poor sales.

Dropped Items:	Suggested Sub:	Dropped Items:	Suggested Sub:
Dryopteris dilatate 'Crispa Whiteside'	Dryopteris marginalis	x Heucherella 'Brass Lantern'	x Heucherella 'Solar Eclipse'
