

# INOVAE CLOSET SYSTEM

*Transform any room  
in your home with  
custom storage solutions  
to fit your unique needs.*

## CLOSET SYSTEM

*Your space is unique.  
Your needs are unique.  
Your style is unique.*

Create the closet you'll love—  
*"A Place for Everything  
and Everything in Its Place."*

The **Inovae Closet System** is a custom ready-to-assemble solution built around you, providing the flexibility for organizing a walk-in, reach-in or a kids' closet. ICS also works well for organizing pantries, mudrooms, craft and hobby rooms, laundry rooms, toy rooms and garages.

**INOVAE**

INOVAE CLOSET SYSTEM

Gregio Pine

Takase Teak

*Enhance Your Living  
Space by Providing  
Organization,  
Simplicity, and  
Functionality.*

The Inovae Closet System (ICS) is a custom ready-to-assemble product made of  $\frac{3}{4}$ " thermally fused laminate panels. The textured resin-impregnated decorative face is permanently bonded with the substrate during manufacturing. The result is an attractive, extremely durable surface that's easily cleaned, resists scuffing and maintains its beauty.

Choose from beautifully textured Gregio Pine or Takase Teak along with your choice of Dark Oil Rubbed Bronze, Matte Nickel or Polished Chrome hardware (closet rods, tie, belt, and scarf racks, shoe fences, baskets and hampers). Other closet finishes are available upon request and may be subject to extended lead times and premium pricing.

Drawers have  $\frac{5}{8}$ " solid birch sides with furniture dovetail corners and a fully captured  $\frac{3}{8}$ " plywood bottom. They glide on heavy-duty, full extension soft-close slides that allow full access to the drawer interior.

Check with your Plato Dealer for details.
