20 / 4TH
20 ANNUAL

ROLE MODELS CONTEST

Winners selected for healthy material innovation and advocacy in design.

Submissions due:
May 18th, 2020

Mycelium is an example of a healthier material with a lot of potential. It's the fungus mushrooms are made of, but it can also produce everything from plastics, to plant-based meat, to a scaffolding for growing organs— what can you make with mycelium?
