

Flood Detection System

MINIMIZE WATER DAMAGE AT YOUR PROPERTY
Just one low monthly fee with no upfront equipment costs

Stealth Monitoring is North America's Leader in Remote Video Monitoring. We Use the Latest Technology and Highly Skilled Video Analysts to Monitor Commercial Properties for Unusual Activity

Stealth Flood Detection System Identifies:

Leak Detection

Running Water

Freeze Conditions

Power Outage

Temperature

Humidity

Stealth Monitoring Flood Detection System is designed to detect water flow through municipal water meters at unoccupied or vacant buildings.

No cutting, drilling, or modifications are required to install the device, it simply attaches to the existing water meter.

Any time water flow is detected during monitoring hours, Stealth Monitoring Security will be alerted immediately of the leak and take appropriate steps to notify customers or emergency personnel.

The sensor can detect anything from pipe bursts to small leaks that could cause significant damage if not caught early.

Besides floods, the Stealth Flood Detection System also monitors temperatures in and around the main water meter and alerts Stealth Monitoring Security anytime pipes are at risk of freezing.

The sensor only needs AC power to operate and has an internal battery backup and wireless communicator, allowing it to operate on almost any water meter.

Detect

Using the Stealth Flood Detection System, leaks and floods are identified by our video analyst team.

Respond

Property owners and managers are notified immediately if anything suspicious is occurring.

Update

Trained operators can inspect the property and keep you updated about flood levels and any possible dangers

Leaders in Remote Video Monitoring & IP Security Solutions

THE STEALTH ADVANTAGE

Monthly Reports & Health Checks

Recurring diagnostic checks on equipment, site inspections, plus site-specific security reports

Site Analysis & System Design

Consultation and customized solutions to enhance security measures

High Definition Surveillance

In-house software development and installation team work together to provide top-quality products & technical support

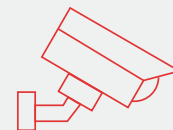

Operational Management Tools

Customized service protocols to meet client-specific requirements

Video Analysis

Proactive forensic video investigation team performs video reviews for security and operation events

Live Remote Video Monitoring

Customized monitoring solutions: live video monitoring, analytic event-based monitoring & video guard tours

SERVING CUSTOMERS ACROSS NORTH AMERICA

Technological advancements with the internet and sensory responses have allowed Stealth to revolutionize the security industry. From how security is managed to how security duties can be performed, Stealth presents you with an all-in-one security solution that uses remote video monitoring capabilities to provide a wide range of security services.

VERTICALLY-INTEGRATED

- Will not charge hidden fees
- Will educate clients on technical concepts
- Will design security plans according to individual site needs
- Will strive to provide latest technology
- Will demonstrate integrity
- Will take accountability
- Will deliver unmatched customer service
- Will handle all cases in a timely manner
