

THERMAL IMAGING

SEE THE HARD TO SEE
One low monthly fee with no upfront equipment costs

Stealth Monitoring is North America's Leader in Proactive Remote Video Monitoring. We Use the Latest Technology and Highly Skilled Video Analysts to Monitor Commercial Properties for Unusual Activity

Stealth Thermal Imaging Features:

Longer Detection Ranges

Lower Installation Cost

Weather-resistant

Clear Images

Improve Coverage

No Lighting Required

Thermal cameras are an ideal choice for monitoring difficult or large outdoor environments, like perimeters, where lighting is minimal. Because they sense objects based on the heat they radiate, they can see things that the human eye and standard cameras cannot, providing clear images in daylight, darkness, shadows and inclement weather.

Criminals like to use the cover of night and objects like bushes and trees to lurk behind. Combined with video analytics, thermal imaging cameras can easily cover large perimeters to detect if someone is hiding and alert our trained operators.

Benefits of Thermal Cameras:

- Longer detection ranges
- Improve overall coverage
- Better coverage for lower installation cost
- Unaffected by weather
- No lighting required
- Clear quality images, day or night

Choose an industry leader with over 25,000 watched cameras every night

Detect

Using Stealth's thermal imaging, criminal activities are identified by our video analyst team.

Respond

Property owners and site managers are notified immediately if suspicious activity is detected.

Update

Trained operators can inspect the property and keep you updated about suspicious activity and any possible dangers.

Leaders in Remote Video Monitoring & IP Security Solutions

THE STEALTH ADVANTAGE

Real-time Health Checks & 24-hour IT Support

Recurring diagnostic checks on equipment and site inspections

Site Analysis & System Design

Consultation and customized solutions to enhance security measures

High-Definition Surveillance

In-house software development and installation team work together to provide top-quality products and technical support

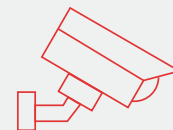

Operational Management Tools

Customized service protocols to meet client-specific requirements

Video Analysis

Proactive video investigation team performs video reviews for security and operation events

Live Remote Video Monitoring

Customized monitoring solutions: live video monitoring, analytic event-based monitoring and video guard tours

SERVING CUSTOMERS ACROSS NORTH AMERICA

Technological advancements with the internet and sensory responses have allowed Stealth to revolutionize the security industry. From how security is managed to how security duties can be performed, Stealth presents you with an all-in-one security solution that uses remote video monitoring capabilities to provide a wide range of services.

VERTICALLY-INTEGRATED

- Will not charge hidden fees.
- Will educate clients on technical concepts.
- Will design security plans according to individual site needs.
- Will strive to provide latest technology.
- Will demonstrate integrity.
- Will take accountability.
- Will deliver unmatched customer service.
- Will handle all cases in a timely manner.

REDUNDANT LIVE VIDEO MONITORING CENTERS
