5. Keep pallet inventory accurate.

A screenshot of the 'Edit Pallet Product' form in the Repalletize dashboard. The form is titled 'Edit Pallet Product' and has an 'Online' status indicator. A 'View Product' button is in the top right. The form fields include: 'Title' (Free Pallets), 'Size' (48 x 40), 'Pallet Type' (Stringer), 'Pallet Material' (Wood), 'Pallet Condition' (Excellent), 'Short Description (Map Pin)' (This is a free pallet), 'Free Pallets' (Yes selected), and 'Inventory Quantity' (3). A red arrow points to the 'Inventory Quantity' field. On the right, there is a photo of stacked pallets and a '+ ' icon for adding more images. A green sidebar on the left contains navigation links: Dashboard, Products, Orders, Reports, Withdraw, Subscription, and Settings.

Repalletize tracks inventory sold so the quantity will change as pallets sell or are claimed for FREE.

6. Delete pallet product if pallets are no longer available.
