Golf Fun Facts!

America's first 18-hole golf course was built on a sheep farm.

You are more likely to be struck by lightning than to make two holes-in-one in the same round of golf.

On February 6, 1971, astronaut Al Shepard Jr. played golf on the moon. Using a 6-iron and only one hand, he hit two golf balls a total of 250 yards.

Golf balls were made entirely of wood from the 14th to the 17th century. A typical wooden golf ball would only last for a few games before needing to be replaced.
