

THE PROMISE

As the proven leader in durability and membrane recycling, we are committed to helping building owners, roofing consultants, contractors and architects meet their sustainability goals today—and long into the future.

THE PROOF

For almost 50 years, Sika Sarnafil has built a legacy for delivering time-proven, earth-friendly, energy-saving roofing and waterproofing systems that align sustainable practices with long-lasting performance.

SMARTEST IN ENERGY SAVINGS

Our ENERGY STAR-qualified vinyl membranes deliver energy savings and reduce greenhouse gases—and take less energy to produce than other single-ply membranes.

www.sustainabilitythatpays.com

BEST IN FIRE PERFORMANCE

When it comes to safety, vinyl roof membranes provide the best fire performance of any single-ply membrane.

www.sustainabilitythatpays.com

FIRST IN RECYCLING

Our innovative recycling program, the first in the US for single-ply roofing membranes, not only recycles production waste but reprocesses vinyl membranes at the end of their service life—into new, high-performance roofing.

www.sustainabilitythatpays.com

UNSUR- PASSED IN DURABILITY

Durability is a key component in any sustainability equation. Our proven thermoplastic membranes continue to deliver unsurpassed performance and value—even after decades of use.

www.sustainabilitythatpays.com

LONGEST RECORD IN SUSTAINABLE ROOFING SYSTEMS

Our time-tested roofing and waterproofing systems are proving that sustainability and performance go hand-in-hand.

HOW DOES YOUR ROOF RATE?

Take our sustainable roofing challenge.

Here's a checklist of leading sustainable roofing criteria to help you make the lasting choice today—and for decades to come.

www.sustainabilitythatpays.com

CRITERIA	THE SIKA SARNAFIL ADVANTAGE	COMPETITIVE ROOF SYSTEM #1	COMPETITIVE ROOF SYSTEM #2	COMPETITIVE ROOF SYSTEM #3
DOCUMENTED SERVICE LIFE	✔ <i>Thermoplastic membrane with the longest track record in roofing and waterproofing</i>			
RECYCLABLE INTO NEW ROOFING MEMBRANE	✔ <i>Vinyl membranes are readily recyclable into new membranes</i>			
ZERO WASTE TO LANDFILL MEMBRANE PROGRAM	✔ <i>100% membrane production waste recycled</i>			
ROOF TAKE-BACK PROGRAM	✔ <i>Established roof membrane recycling program</i>			
ENERGY STAR®-QUALIFIED	✔ <i>The EnergySmart Roof® exceeds ENERGY STAR cool-roofing requirements</i>			
ROOF INSULATION MINIMUM OF R-20	✔ <i>Sarnatherm insulation available in a wide variety of configurations to meet building-specific requirements</i>			
LESS THAN 50% OIL BASED	✔ <i>57% of vinyl resin is derived from salt</i>			
LIFE CYCLE ANALYSIS	✔ <i>Vinyl roofing membranes rated highest in eco-efficiency amongst competing products</i>			
CARBON OFFSETTING	✔ <i>The energy savings resulting from the use of the EnergySmart Roof more than offset the carbon emissions caused by membrane production</i>			
RESIST SPREAD OF FIRE	✔ <i>Vinyl membranes perform better in resisting spread of fire than other single ply membranes</i>			
ISO 14001 AND RESPONSIBLE CARE-CERTIFIED	✔ <i>We take pride in our internationally recognized certifications</i>
