

# PRODUCT DATA SHEET

## SARNAREGLET

Sarnareglet is a heavy-duty counterflashing used as a key component within certain flashing details for Sika Sarnafil roofing and waterproofing systems.

### PRODUCT INFORMATION

#### USES

For clamping at critical points

#### AREAS OF APPLICATION

- New Roofs
- Recover Roofs
- Flashing Details

#### FEATURES / BENEFITS

- Optimizes caulk/sealant performance
- Fully supports a sealant bed
- Increases rigidity between flashing points

### PRODUCT DATA

#### FORM

#### COMPOSITION

Sarnareglet is produced from 6063T5 extruded aluminum and is provided with predrilled holes at 8 in (20 cm) o.c. for attachment to walls or curbs. The holes are symmetrically offset from the ends of the Sarnareglet and are slotted to allow for thermal expansion and contraction.

#### DIMENSIONS

Thickness: 0.10-0.12 in (2.5-3.0 mm)

Length: 10 ft (3.05 m) length

Profile depth: 2.25 in (57 mm)

#### PACKAGING

- 150 ft per cardboard tube, 50 lbs (23 kg) per cardboard tube
- 15 splice plates provided in each cardboard tube

---

## SYSTEM INFORMATION

---

<b>INSTALLATION</b>	A passive sealant bed is first applied to the wall or high curb according to Sika Sarnafil's Detail Drawings. The membrane flashing or the Sarnaclad flashing is then installed. The Sarnareglet is positioned, leveled and fastened to the wall or curb against the top of the flashing to securely clamp the flashing in place. The primary (active) sealant is then applied onto the Sarnareglet sealant shelf and rolled/feathered according the sealant manufacturer's recommendations or requirements.
<b>AVAILABILITY</b>	From Sika Corporation – Roofing Authorized Applications for use within Sarnafil or Sikaplan systems.
<b>MAINTENANCE</b>	Standard maintenance of Sarnafil or Sikaplan systems should include regular inspection of flashings, drains, and termination sealants at least twice a year and after each storm.
<b>WARRANTY</b>	As a Sika supplied accessory, Sarnareglet is covered under Sika Corporation warranties.

<b>LEGAL NOTES</b>	<p>All information provided by Sika Corporation ("Sika") concerning Sika products, including but not limited to, any recommendations and advice relating to the application and use of Sika products, is given in good faith based on Sika's current experience and knowledge of its products when properly stored, handled and applied under normal conditions in accordance with Sika's instructions. In practice, the differences in materials, substrates, storage and handling conditions, actual site conditions and other factors outside of Sika's control are such that Sika assumes no liability for the provision of such information, advice, recommendations or instructions related to its products, nor shall any legal relationship be created by or arise from the provision of such information, advice, recommendations or instructions related to its products. The user of the Sika product(s) must test the product(s) for suitability for the intended application and purpose before proceeding with the full application of the product(s).
