COVID 19?

Coronavirus?

What is it?

This book is designed to help children understand the Coronavirus and offer tips on things to do while at home.

The coronavirus is a very powerful illness that makes people very sick.

People can have a sore throat,

a runny nose,

a cough,

a fever,

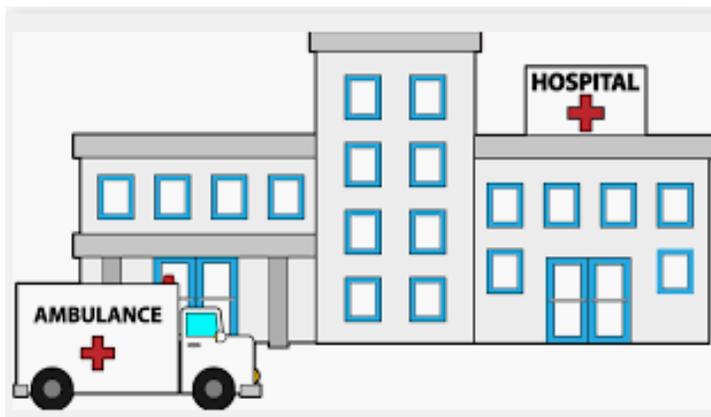

and they also might have trouble breathing.

Many people who get this virus can stay home to rest and get better.

Some people will have to go to the hospital.

We want to stay as healthy as we can!

There are some things we can do to help stop the spread of germs.

We can wash our hands, with soap and warm water for 20 seconds.

If we stay home and don't go out to places with a lot of people, like a church, or a store or a playground, that keeps us from spreading germs.

There are lots of things we can do to stay busy.

We can:

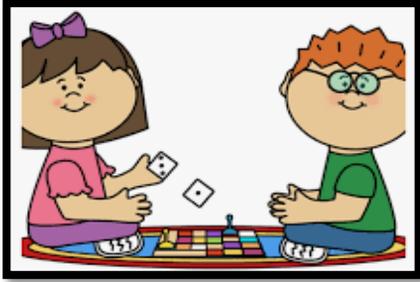

Do school work,

read books,

take a nap,

play games,

play in the yard,

draw or color,

And so many other things! What do you like to do?

We will be safe when we are at home.

It is hard to be missing our school friends. When the Coronavirus is gone we can go back to school and our favorite places.

What are some of your favorite places?

Parents and caregivers,

Please visit :
