

FOR TEACHERS OF ANY GRADE

smART PD

This multifaceted **Professional Development (PD)** program gives teachers resources and easy-to-use arts integration strategies that enhance virtual classroom learning and keep students engaged. Learn to use hands-on arts activities to strengthen lessons in math, literacy, history, and more!

**Teaching Artist PD Workshop:** Teachers will learn arts-integrated teaching approaches in artforms like beatboxing, drama, musical parodies, dance, pottery, and storytelling!

- Teaching artists deliver virtual, 90-minute workshops for up to 30 teachers. Schools can book workshops with a single artist and art form, or workshops with multiple artists in multiple art forms.\*

**“smART Day” Planning Sessions:** A teaching artist who led the workshop will spend a full day with a school, meeting one-on-one with teachers to brainstorm ideas for their own unique lessons.

**smART Tips Video Portal:** Schools or districts can access a resource library of videos all year with arts strategies, demonstrations, and techniques usable at home or in classroom instruction.

### Why it works:

smART PD's step-by-step approach builds teacher confidence to easily and immediately implement arts integration into their teaching.

For more information or to book a smART PD program, contact Hana Morford at [hana@yamd.org](mailto:hana@yamd.org) or 410-837-7577 x142

\*The Workshop is also available as a one-time, stand-alone program.
