

2022 SUMMER ARTS FOR LEARNING ACADEMY (SALA) TEACHING ARTIST

Reports to: Summer Arts for Learning Academy Site Director
Classification: Seasonal Full-Time Exempt

The SALA Teaching Artist Job Description:

The Summer Arts for Learning Academy (SALA) Teaching Artist is the heart and soul of the Academy. Teaching Artists are paired with a grade level Classroom Teacher for the entire six weeks of the program (Monday - Thursday). These pairs are responsible for delivering engaging, meaningful, and joyful arts-integrated instruction both in and through the arts daily. Teacher/Artist pairs will co-plan and co-teach one class of arts-integrated math and one class of arts-integrated literacy to the same students each day. In addition, all Teaching Artists are expected to lead a SQUAD session each morning, in partnership with their Teacher. On program days, Teaching Artists have the option of teaching a partial day (8:30 am - 1:45 pm Monday - Thursday) or a full day (8:30 am - 3:30 pm Monday - Thursday).

About the Summer Arts for Learning Academy:

Baltimore City Schools' Summer Arts for Learning Academy (SALA), operated by Arts for Learning Maryland (formerly Young Audiences of Maryland), offers students an opportunity to imagine, create, and express who they are through the arts. This is an action-packed, full-day, six-week program (Monday - Thursday) that introduces students to a wide variety of art forms—from illustration and spoken word to percussion, drama, and dance—which gives students a chance to work alongside students from across the city and be taught by professional Artists. Students' work is celebrated through a student showcase on the final day of the program. Arts for Learning Maryland will host nine Academy sites throughout the city, locations TBD. Each classroom will have 26 students.

Mission and Core Values:

The mission of Arts for Learning's elementary grade Summer Arts for Learning Academy is to provide students with a once-in-a-lifetime opportunity to spend a Summer learning from the best Teachers and Teaching Artists our state has to offer. Through a dynamic, creative, and supportive environment, students will explore math and literacy in a unique arts-integrated environment that prevents the Summer learning slide, allows them to develop socially and emotionally, expands their personal creative process, and introduces them to many different art forms taught by professional Artists.
