MODULE 3: YOU'RE NOW A MASTER PROCESSOR

YES! YOU DID IT! Module 3----THAT'S A WRAP! So, now again, if you haven't picked up by now, I really want you to check all those boxes with a different action item so you can rack up those points.

And now, I want you to go into the Facebook group and share maybe one of your magic phrases or something you use when you process with either children or adults. And again, we do this because we all learn from each other. So, before we go into Module 4 though, I've got something really cool that I want you guys to do. So before you skip over that, make sure that you check my face out and share some of your biggest take-aways. And it will be on the timeline right below this video.

And, I'll see you in Module number 4.
