Maya allotted time to Bilal.

Bilal said he was one last year. Being a senate council member was the most important position a senator can have when it comes to affecting policy. These members will work with and hear all legislation. It was these positions that advocated for the pass/fail and last day to withdraw date this semester. It is an important position. It is necessary that our member is going to be diligent, thoughtful, and consistent.

VIII. Presidential Privilege

Courtney thanked O&E or their time and work. Courtney said yesterday was the meeting of the board of trustees. She is shadowing Michael until June. University senate council is very supportive of reading days, but now they are holding off edits of the calendar until next year. It could get confusing for students. The fall calendar stands as it is posted online. If anyone has any ideas on how we can go back in the fall and adjust to this new normal she would love to get those suggestions. Living in resident halls, lecture halls, etc. She is excited for this role and if anyone has any concerns let her know. She will be working with exec over senate. If you ever need anything text or email her.

Maya thanked her. She made sure everyone is sworn in. If not, contact her. She will see everyone in the fall at senate retreat.

Courtney said for all asking, everyone who is a college senator, will go to university senate once a month. Congratulations again to Taylor and Daniel.
