

RON COOPER QUOTES

Opening Statement:

“Extremely proud, we had a lot adversity, during the week. We worked hard. We talked last night of what we had to do to win. We did some good things. I'm proud of the guys. And we're just gonna keep moving forward. Eliminate the first few weeks. We are starting over. We gotta keep going. We'll celebrate tonight but tomorrow we gotta get back to work and continue to get better.”

On Anthony Jones and Alex Gardner:

“We thought during the week the offensive line did great and we knew what these two had. We told them we knew they could win if they just held on to the ball. Ball security was excellent and they took some shots but the offensive line blocked well for them.”

On being named interim coach:

“Well Ron Turner did a great job. The only thing different that I did this week was put a little more contact in practice. A lot of times if you're gonna run the football you gotta do it and we did. We have to have energy and I told the scout team that they gotta be the best cheerleaders they can be and be behind their teammates.”

Alex McGough Quotes

On first win:

“It feels great, just the atmosphere of everybody and coming after a coach change. Coach Coop came in and built confidence in us on the field. Offense had 450 yards and the defense played really well the whole game. It just feels great to everybody.”

On mixed emotions after losing starting role:

“The first four games, nothing really went right for anybody but after Coach Coop came in he installed confidence in us.”

Anthony Jones Quotes

On McGough:

“He came out tonight and brought his “A” game that's what you're going to get.”

On how many yards do you think you left out on the field tonight:

“(Laughs) I can't give you a number but I know that I did leave some big runs out there.”
