RECORD BOOK CRITERIA

The below criteria were established to uphold the integrity of the University of Cincinnati Track and Field Record Book.

To be eligible for new entry into the University of Cincinnati Track and Field Record Book an athlete must meet all of the below criteria:

- Active member on the University of Cincinnati Track and Field Team Roster
- Academically eligible for intercollegiate competition
- Utilizing a season of eligibility

Examples:

An athlete competing unattached is eligible for entry into the record book provided all parts of the above criteria were met.

An athlete redshirting a season is not eligible for entry into the record book during that season or an extension of that season because a season of eligibility was not utilized.

An athlete competing during the extended NCAA season after the NCAA season has concluded is still eligible for entry into the record book whether competing for the Bearcats or unattached provided the above criteria were met for the season of which the competition is an extension. If a season of eligibility was not utilized, then the athlete is not eligible for entry into the record book during the extended NCAA season.

A UC student competing for the Bearcat Track Club or unattached is not eligible for entry into the record book if he/she was not an active member of the University of Cincinnati Track and Field Team during the time of the performance.

A UC track and field team member competing unattached while academically ineligible for intercollegiate competition is not eligible for entry into the record book.

Exceptions:

From 1999 through 2013, the University of Cincinnati did not sponsor men's indoor track and field. Unattached results during this era were accepted into the record book even though a season of eligibility was not utilized because the athletes were not permitted to utilize a season of eligibility. For entry into the record book, the athlete still had to be an active member of the University of Cincinnati Track and Field Team and he had to be academically eligible for competition.

Wind Reading Criteria:

New entries into the University of Cincinnati Track and Field Record Book in the 100m, 100/110m hurdles, 200m, long jump, and triple jump require a wind reading of 4.0 m/s or less.

Wind readings were not taken during much of the history of Cincinnati Track and Field and those marks were accepted into the record book. Wind readings are now a requirement for NCAA competition and are now a requirement for entry into our record book in the 100m, 100/110m hurdles, 200m, long jump, and triple jump.

Rather than adopt the requirement the IAAF uses for World Records (2.0 m/s or less), the decision was made to accept marks into the UC record book if they meet the NCAA requirement for acceptance into the NCAA Meet. The wind reading requirement is 4.0 m/s or less to be accepted into the NCAA Championships.

NUMBERS TO KNOW

1

CHAMPS!!! The UC indoor men's track and field team WON its first AAC Conference championship last season. It is the first men's conference title since 2004 and the first indoor title since 1994.

93

Bearcats recorded a grand total of 93 all-time top 10 times across both the indoor and outdoor seasons. The women's team recorded a team high 27 all-time top 10 times during the outdoor season.

20

Program records were recorded last season. Penn lead the women's team with four school records, three individual. While Wirth recorded three individual program records for the men.

17

The Bearcats claimed 17 individual conference titles in their final year in the AAC. Rylee Penn earned AAC indoor Most Outstanding Performer after winning three titles in Birmingham. Fred Moudani-Likibi earned AAC Men's Outdoor Field Most Outstanding Performer during the championships in Tampa, Fla.

19

The 19 individual NCAA East First Round Qualifiers was the most individual qualifiers in program history. Leading the way was the women's high jump group with four qualifying athletes.

6

The six Bearcats that advanced to the NCAA Outdoor Championships tied the record the most individual qualifiers in program history.

RECORD BOOK CRITERIA

CONVERTING

"In an attempt to coordinate all records among the various distances, timing devices and types of indoor tracks, and also to rank the athletes from the different years into one 10-deep list, I have converted all races of a similar distance into present-day terms: METERS, FULLY AUTOMATIC TIMING and 200 M. BANKED OR OVERSIZED TRACKS FOR THE INDOOR SEASON. Those races which do not have a metric counterpart are in essence a different race from the ones now contested and therefore shall stand separately. Those which do have a metric counterpart (220 yards, 440 yards, 880 yards, 4 × 110 yards, 4 × 220 yards, 4 × 440 yards, Sprint Medley Relay and Distance Medley Relay) were converted accordingly into their metric distance. In other words, a "yards" race was converted into a "meters" race for the purpose of easy comparison by subtracting the appropriate time. This procedure was designated by the following mark (y), indicating that the race was run in yards but converted to meters.

In a similar manner, a hand-held time (HT) race was converted into its present-day fully automatic timed (FAT) equivalent by adding 0.24 seconds, generally considered to be the reaction time of the human timer. This procedure was designated by the following mark (h), indicating that the race was actually hand-timed but was converted to fully automatic timing.

Finally, beginning in 2009 when nearly all indoor meets were run on 200 M. banked tracks or oversized tracks, all previous races run on smaller or flat tracks were converted as if they had been run on the larger tracks. This was done by subtracting the appropriate time from the actual race run. When that was done flat track races were designated by (f). Although these conversion procedures can never be considered absolutely accurate and fair to all athletes, they do present the "best guess" and also enable the athletes to be compared in one, easily-read, 10-deep list."

CONVERTING YARDS TO METERS

220 Yards to 200 M.	Subtract 0.1 seconds
440 Yards to 400 M.	Subtract 0.3 seconds
880 Yards to 800 M.	Subtract 0.7 seconds
Mile Run to 1600 M.	Subtract 1.6 seconds
4 × 110 Yards to 4 × 100 M.	Subtract 0.2 seconds
4 × 220 Yards to 4 × 200 M.	Subtract 0.4 seconds
4 × 440 Yards to 4 × 400 M.	Subtract 1.2 seconds
4 × 880 Yards to 4 × 800 M.	Subtract 2.8 seconds
Sprint Medley, Yards. to Sprint Medley, Meters	Subtract 1.2 seconds
Distance Medley, Yards. to Distance Medley, Meters	Subtract 3.8 seconds

CONVERTING MANUAL TIMES (MT) TO FULLY AUTOMATIC TIMES (FAT) (In all races add .24 seconds)

EXAMPLE:

Bob Howell actually ran 220 yards, hand-timed in	OUTDOOR 200 M.	21.00
Convert 220 yards to 200 meters (subtract 0.1 seconds)	~ y	20.90
Convert (HT) to (FAT) (add 0.24 seconds)	~ h	21.14
This mark is now listed in the record book as follows: Bob Howell	hy	21.14

RECORD BOOK CRITERIA

CONVERTING *cont.*

CONVERTING TIMES FROM 200 M. FLAT INDOOR TRACKS TO 200 M. BANKED OR OVERSIZED TRACK

Races run on 200 M. flat tracks You need to convert to: Convert time by using this formula:

200 Meters	200 M. banked or oversized	From flat time subtract: Women (.20) Men (.25)
300 Yards / 300 Meters	200 M. banked or oversized	From flat time subtract: Women (.25) Men (.33)
400 Meters	200 M. banked or oversized	From flat time subtract: Women (.30) Men (.40)
500 Meters	200 M. banked or oversized	From flat time subtract: Women (.33) Men (.45)
600 Yards / 600 Meters	200 M. banked or oversized	From flat time subtract: Women (.35) Men (.50)
800 Meters	200 M. banked or oversized	From flat time subtract: Women (.40) Men (.60)
1000 Yards / 1000 Meters	200 M. banked or oversized	From flat time subtract: Women (.50) Men (.70)
Mile / 1,500 Meters	200 M. banked or oversized	From flat time subtract: Women (.60) Men (.80)
3,000 Meters	200 M. banked or oversized	From flat time subtract: Women (.80) Men (1.30)
5,000 Meters	200 M. banked or oversized	From flat time subtract: Women (1.60) Men (1.90)
4 × 400 Relay	200 M. banked or oversized	From flat time subtract: Women (1.20) Men (1.60)
4 × 800 Relay	200 M. banked or oversized	From flat time subtract: Women (1.60) Men (2.40)
Distance Medley Relay	200 M. banked or oversized	From flat time subtract: Women (1.80) Men (2.50)

EXAMPLE: Mary Danner ran a 400 M. race in 2002 on a 200 M. flat track (f) in 55.54. To compare her time with those running on 200 M. banked or oversized tracks typical of most meets from 2009 to the present, take her actual time (55.54) and subtract (.30) giving her a record book time of 55.24 and designated with an (f).
