TRAGER STADIUM FUN FACTS

Louisville's Trager Stadium will be the host site for the 2026 NCAA Division I Field Hockey Championship, marking the seventh time the venue has crowned a DI national champion.

• The postseason event comes on the heels of serving as the host site for the ACC Championship in 2025.

• In 2022, the Cardinals began play on a brand new turf at Trager Stadium. The new playing surface provides the finishing touch to recent upgrades which include a new state-of-the art video board on the north end of the stadium and secondary scoreboard on the east side. The project was funded through private donations to The New Standard campaign.

• The recently-installed AstroTurf System 90 combines the traditional knitted nylon synthetic turf with a 3/8th inch closed cell pad. The turf and pad system provides high level performance for a fast, non-directional ball roll.

• Trager Stadium has served the host site for six NCAA Division I Championships (2002, 2005, 2008, 2011, 2017, 2018) as well as the NCAA first and second rounds in 2019. Additionally, the facility has showcased three NCAA Division II Championships (2010, 2014, 2017). In 2002, Trager Stadium became the first University of Louisville facility to host a national championship since the 1969 NCAA men's basketball Final Four was held at Freedom Hall.
