## **Gonzaga's Intercollegiate Athletics Mission Statement**

In keeping with the University's Missions Statement, the Department of Athletics seeks to initiate, stimulate and improve intercollegiate athletic programs for our student athletes and to promote educational leadership, physical fitness and recreational pursuits.

### **Department Philosophy**

1. At Gonzaga, student-athletes will be provided with the opportunity and encouraged to progress toward a degree of their choice and the opportunity to develop athletic abilities in an environment consistent with the high standards of academic scholarship, sportsmanship, leadership, and institutional loyalty. The intercollegiate athlete representing Gonzaga will be a bona fide student pursuing a degree program, as well as being an amateur competitor. Gonzaga student-athletes are expected at all times to conduct themselves in a manner consistent with the University's Mission Statement.
2. Further, it is recognized that a healthy, well-run intercollegiate athletic program:
  - a. is an important part of a well-rounded University dedicated to the service of a broad range of student, faculty and public interests;
  - b. can and should develop character, maturity and sense of fair play as well as athletic excellence and physical vigor;
  - c. is important in engendering community support for the institution at legislative, state and local levels;
  - d. fosters pride in the University among faculty, students and our community;
  - e. generates revenues to support, at least in part, intercollegiate teams and athletes in those sports that are not financially self-sustaining;
  - f. abides by the letter and the spirit of the law requiring nondiscrimination on the basis of sex, race, religion and national origin.
