

ODU @ MARSHALL 10/12 – QUOTES

Marshall head coach Doc Holliday

Opening statement: It was important that we got that win today. I was proud of our kids and the way they went out and executed. We felt like we had to start fast and I thought we did. That's a defense that nobody ran on all year long, including Virginia and Virginia Tech. Today we had a couple hundred yards rushing. The thing is I preached all week, number one we got to score in the red zone and number two we got to take care of the football. We did both of those today. We were a hundred percent in the red zone. We took a knee there at the end of the game instead of scoring which we don't count. I'm proud of our players in the way they bounced back and the way they played. The defense was tremendous. It is going to be a quick turnaround this week. We have to turn this thing back around and be ready to go on Friday. We have to get some guys healthy and get back here tomorrow. Tomorrow is Monday for us. But again, I'm proud of the players in the way they responded. At the end of the day we took care of the ball and the scored in the red zone. I told you if we did that we had a chance to win and that is what happened.

Redshirt sophomore defensive lineman Darius Hodge

On the team's sack total: It was a great feeling, not just for myself, but I had other d-linemen that got sacks with me. It was a party in the backfield.

On ODU's two quarterback approach: We don't really go off of starters. We just go off whoever is out there and we have to play against him. When he came in, we just kept calling our plays and went after him.

Redshirt sophomore quarterback Isaiah Green

On converting in the red zone: It was something we struggled with this season, so it felt good to go down and put it in the end zone.

On not focusing on the scoreboard when the game was close: We try not to put focus on the scoreboard. We try to focus on going fast and executing our plays and putting the ball in the end zone when we get in the red zone.
