

DOC HOLLIDAY POST-GAME QUOTES

VS. FAU

Opening statement: “Sometime at some point in the season, you have to grind one out and that was the game. Defense played lights out again. Just so pleased with our team to get that victory and go 5-0. We weren’t sure exactly what we were getting into. It was like a first game for us.”

On the defense: “When a defense can hold a team to nine points, you’ve got a shot at winning. We got to keep getting better. At the end of the day it’s a ‘W’. We’re happy where we are, we’re still right on track. The leadership on this team is as good as any team I’ve been a part of at Marshall or anywhere.”

Artie Henry

Artie Henry on what the discussion was like during halftime...

“The execution started out slow in the first half but we talked during halftime and we just got it together.”

What he (Artie) was thinking before the drive that led to his touchdown...

“We knew it was going to be a fight and we were prepared for it, we just buckled down and we played Herd football.”

On what him (Artie) and Gammage discussed in regard to missing players...

“We just made sure that there wasn’t a drop off. We all prepared the same and we get coached the same, so there is no drop off.”

Brenden Knox

Brendon’s thoughts on being behind in the first half...

“We just stayed the course, just uplift guys and let them know we are still in this. It is a boxing match at that point.”

Brenden’s thought on progressing as the game went on...

“Every week is not going to be a blow out. At the end of the day this is football and it’s a man’s game. It is just about how to respond to what is given and staying the course.”

Brenden’s thoughts on how difficult this game was to prepare...

“It was different to say the least, but I wouldn’t say anything too crazy. It is about just game planning on what you have and executing.”

Grant Wells

Grant’s thoughts on when Marshall was trailing in the first game.

“There wasn’t any panic. What you saw out there was midgame game planning. You don’t see that very much, but we thought they were going to come out in something else and they

showed up with new players and somewhat of a new scheme. I think it took a little while for us to game plan during the game.

Grant's thoughts on how he thrives in sticky situations...

"I just stay to myself. I have proven to myself that I can do everything that Cram asks of me. So not a panic because we knew we had a lot of football game left to play. So just staying to myself and sticking to my reads, because as soon as I get outside of my mind or start thinking about the score or anything else that is when mistakes start happening.

Tavante Beckett

Tavante's thoughts on FAU's preparation and how to get rolling

"It is about being ready and adjusting on the fly. They had a couple things that they were calling and we just had to figure those out quick, because they were moving the ball pretty well. It is important to get a feel for the game and get the jitters out so everyone could dial in to the cause. I know Coach Lambert is going to make the right calls and that's where all our trust goes. To him making the calls and us executing."

Tavante's thoughts on the young guys stepping up...

"For us, we are around them every day and I know they see how we come to work, but it is not surprise to me that is our expectations. When one goes down the next man up. That is what we work hard for and that is why we rotate at practice. You have to get all those guys involved because you never what's going to happen especially with the year 2020 and COVID. "
