1906 No team; Soccer replaced football as the varsity sport in 1906

From the College Football encyclopedia:

Knox joined a host of teams in abandoning football because of its brutality. In 1905 alone there were 18 deaths and 149 serious injuries due to football. President Theodore Roosevelt called on Ivy League schools to clean up the game. In response, Columbia dropped the sport and Stanford and California switched to Rugby. From this movement, the forerunner of the NCAA was formed and new rules were put into place, including allowing the forward pass.

From this point on, games against high school opponents do not count in the regular record

Miscellaneous Notes from Ripon College web site

All standings ties are rounded up (i.e. three teams tied with two losses for second are all listed as second, with the next team in line listed as a fifth-place finish). During the years of divisional play, winning percentage determined final place. In cases where a divisional tie resulted in a multiple champion, the loser of the championship game was rounded down.

The Midwest Conference ignored ties in conference standings from 1922 to 1936. From 1937 to the present, ties are considered a half-win and half-loss. All ties are counted as such in these standings.

The first round-robin schedule was in 1954. Winning percentage figures conference places prior to that date as recognized at that

School Notes:

Beloit College did not compete in 1951, when serving a one-year suspension, and did not return until 1959.

Beloit College had freshmen on its 1970 and 1971 teams due to lack of upperclass personnel, so games with that school were counted as non-conference contests.

Monmouth served a two-year Midwest Conference suspension in 1974 and 1975.

St. Norbert University served a one-year Midwest Conference suspension for an illegal pre-season scrimmage in 1998.

Schedule Notes:

Divisions were East and West in 1976 and 1977, followed by Red and Blue Divisions in 1978 and 1979. The Red Division was a grouping of "strong" football programs (Ripon College, Cornell College, Lawrence, Monmouth, Coe College and Knox), while the Blue Division was a grouping of "weak" football programs (Lake Forest College, Beloit College, Carleton, Chicago and Grinnell). (Ed. Note: The use of "strong" and "weak" as adjectives are marked as such in official Midwest Conference records.)

In 1980 and 1981, round-robin play was used. Beginning in 1982, North and South Divisions were used until the departure of Coe College and Cornell College from the Midwest Conference in 1997. Starting in 1998, full round-robin scheduling resumed. In 2001, an eight-game conference schedule was played due to a cancellation of all games on Sept. 15, due to terrorist attacks on Sept. 11. Cornell returned to the league in 2012, with the schedule going to a modified roundrobin format. Macalester joined the league in 2014 for football only, which resulted in a return to divisional play and incidental division finishers meeting in Week 11. The same schedule applied in 2015. In 2016 with the loss of Carroll it was a unified conference, but it again reverted to divisions in 2017 when the University of Chicago rejoined the league. In 2021 following the cancelled 2020 season it was again a unified conference with the loss of St. Norbert and Macalaster.

* Mondo suffered a concussion and blood clot that required surgery in the 7th game of his junior year and never played again

Bill Senn would undoubtedly be at the top of this list but for the fact that attempts were not recorded consistently in game reports of the time

	227	Kaile Williams	2019-2022

Note: Carries were not recorded in Bill Senn's era, so while it is likely he would have placed in the top 3, his exact place cannot be determined
Also, since game play-by-plays are not available prior to 2000, exact totals are not available, so numbers from years prior to 2000 should be treated as +/- 5 carries

* In the worst streak under one coach in Knox Football history, the team lost the last 5 games of the 1966 season then lost the first 7 games of 1967 before tying Carleton. They lost every game in 1968 and the first game of 1969, extending their winless streak to 22. After that they beat Beloit before losing the rest of the games that season and the first game of the 1970 season. The record during the streak was 1-30-1.

The worst streak in school history was a string of 27 consecutive losses starting with the final three games of the 1931 season and running through the next three seasons. During this run, Knox was outscored 508 to 49 and went the entire 1934 season without scoring a point. Three coaches came and went during this period in which Knox tied the then NCAA record for the longest losing streak.
