All Lewis & Clark Baseball statistics were lost in the coaching transition of Mickey Hergert to Jerry Gatto. Therefore, only complete season statistics are available since 1981. Some older season records and significant statistics were found by looking through past college yearbooks and newspapers; however, they are far from complete. The Sports Information office is constantly working to rebuild the statistical information prior to 1981. Individuals with documented additions to this history are invited to submit those records to the Lewis & Clark Sports Information office. Most records listed in this record book are inclusive, beginning with the 1981 season.
