Things to know before you begin your research:

Due to the fact that computer statistics did not come along until the 1990s, results and data outside of the last 25 years may not be completely accurate. Records are, therefore, not necessarily comprehensive, and lists may contain gaps where no historical information is currently available.

All findings outside of the last 25 years come from hard copies of archived scorebooks, reporting forms, newspapers, yearbooks, etc. Every piece of information included in these record books has at least one source of verification.

Records for the most recent academic year may not be added until the following summer. i.e. 2017 soccer records may not be reflected until summer 2018.

These record books were produced by the Milligan University sports information office. Contributors include numerous athletics directors, coaches and sports information directors, past and present. Special thanks to B. Harold Stout, whose dissertation in 1974 provides much of the athletics history for 1887-1973.

If you have information regarding Milligan's athletic history and/or records that could be used to add to the volume of this record book, your assistance would be greatly appreciated. Please contact Milligan's sports information office (sportsinfo@milligan.edu, 423-461-8980).
