MC Tennis Courts

Monmouth Women's Tennis

The Monmouth College tennis courts are located at the corner of sixth street and Euclid Ave. There are six courts as courts 1 and 4 border sixth street while courts 3 and 6 border the throwing area for track and field.

All six courts were redone in the summer of 2022. The courts received a total makeover, including a resurfacing of the playing area and new windscreens. The courts had last been surfaced in 2002 and when they were redone in 2022 the color was changed to blue with the out-of-bounds area as green. The facility also features tiered stone and grass seating on the west side for spectators who are also welcome to bring lawn chairs to enjoy the action on the other courts.

The first recorded women's tennis results were listed for the 1919-20 season when Evelyn Douglas and Janette Meridith claimed the singles titles at the conference tennis tournament. Monmouth introduced women's tennis as one of its first intercollegiate sports in the spring of 1974. The first official Midwest Athletic Conference for Women (MACW) tennis championship meet was held in 1978. Monmouth dropped the sport after the 1991 season. The women's team was resurrected in 2002.
