

THE CROSSROADS OF AMERICA

Indiana, "The Crossroads of America," has something for everyone. Whether you are in search of work, recreation or relaxation, the Hoosier State most likely will satisfy your needs.

Located in the heart of the Midwest, Indiana is welcoming to a variety of people because of its rich history, cultural opportunities and fertile landscape, not to mention its place as one of the major sports metropolises and industrial centers in the nation and world.

In the northwest corner of the state, one can traverse Indiana's 41-mile Lake Michigan waterfront. This area, which boasts the Indiana Dunes National Lakeshore, is good for work and play. It is home to industries that turn out iron, steel, oil, automobile parts and accessories, truck and bus bodies, aircraft engines and pharmaceuticals. Indiana gives to the world from factory to field. The state is a leader in agriculture, with corn as its main crop.

Beneath much of Indiana's rich soil is limestone. A large amount of the building limestone used in the U.S. is quarried in Indiana.

Those looking for a little adventure in Indiana can access more than 1.1 million acres of land available for outdoor recreation. Some of that land can be found in southern Indiana, where Wyandotte Cave, one of the largest caverns in the U.S., is located.

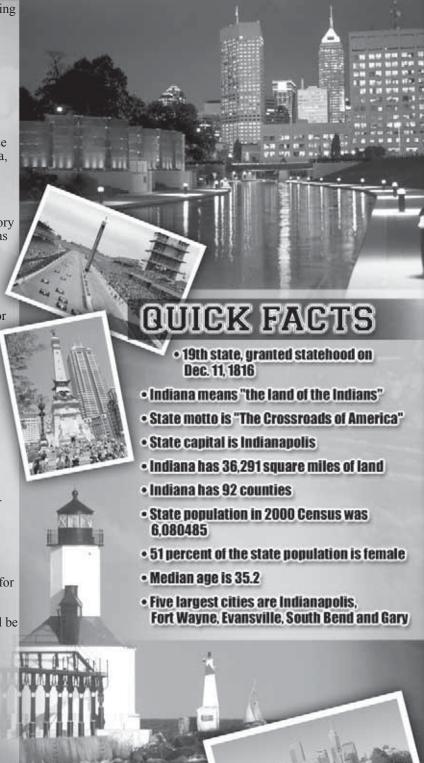

One can work and play in Indiana. But when

One can work and play in Indiana. But when it comes to sports spectating, Indiana is second to none. Everything starts in Indianapolis, home of the NFL Colts, NBA Pacers and WNBA Fever. The Indians, a Triple-A baseball team, play at Victory Field, while Indianapolis also is home to the Indiana Ice hockey team. During the summer, the city plays host to the Indianapolis Tennis Championships, a precursor to the U.S. Open. The summer starts with the Indianapolis 500 and draws to a close with the Brickyard 400 car races, run at the Indianapolis Motor Speedway.

Indianapolis has hosted one women's basketball and five men's basketball NCAA Final Fours. The men's finals return in 2010 and the women in 2011. Additionally, the city has conducted at least one Olympic Trials each year since 1984, including those for swimming and diving, synchronized swimming, track and field, and wrestling.

Lucas Oil Stadium, the new home of the Colts, will be the site of Super Bowl XLVI in 2012.

Whatever your pleasure is, you are sure to find it somewhere in the state of Indiana.

ACAIDEMIC Success

Purdue University is a proud member of the NCAA and the Big Ten Conference. Founded in 1869, Purdue University has forged a tradition of education, research and service to the state, the United States and the world. As a Purdue student-athlete, you will receive the highest quality of education possible, coupled with a great intercollegiate athletics experience.

At Purdue University, we place value in the intercollegiate athletics experience of our student-athletes. The athletics department supports the educational mission of our institution in its pursuit of academic achievement and graduation. Through participation in our athletics programs, students learn self-discipline, build self-confidence and develop competitive skills. Our student-athletes learn practical life lessons such as

Through the Drew and Brittany Brees Student-Athlete Academic Center, you will find the resources necessary to excel as a student, a student-athlete and as a well-rounded individual.

teamwork, sportsmanship, winning and losing, and hard work.

Academic Support Facilities

The facilities in the Drew and Brittany Brees
Student-Athlete Academic Center and the staff in
academic support services are available to help all of our
student-athletes reach their academic goals. The Drew
and Brittany Brees Student-Athlete Academic Center
is located on the second floor of the Intercollegiate
Athletic Facility and offers a range of academic support
services for our student-athletes.

Services available include: monitored study tables; individual and group tutoring; 74-station computer lab; walk-in tutoring for math, chemistry and physics; supplemental instruction; laptop computers for traveling; and note-takers.

Study Table — Our main study table area is located in IAF room 220 and can seat 35 student-athletes. This room is monitored from 8 a.m. to 10:30 p.m. Monday through Thursday, from 8 a.m. to 5:00 p.m. on Friday and from noon to 10:30 p.m. on Sunday. It provides a comfortable and quiet area to study.

Tutor Rooms — We have several rooms for individual tutoring sessions in the IAF. Our student-athletes have the option to request tutors for any of their courses while here at Purdue. The facilities in the IAF provide a quiet and convenient location for those one-on-one sessions.

Computer Lab — We also have a 74-station computer lab in the IAF that is operated by the office of Information Technology at Purdue (ITaP). Since ITaP operates this lab there is a computer lab assistant in the room in case assistance is needed and ITaP maintains up-to-date software on all machines. The lab has 74 IBM computers, all of which have Internet connections and are connected to the University mainframe.

Walk-In Tutoring — Room 209B in the IAF is available for tutoring sessions (one-on-one or small group) during the day, but is reserved for our math walk-in tutor on designated evenings. IAF is also available for our Chemistry and English walk-in hours

Math walk-in hours — Math walk-in tutors are located in the IAF on designated evenings. These tutors are available on a first come, first served basis for any student athlete who is experiencing difficulty in math.

Chemistry walk-in hours — Chemistry walk-in hours are located in the IAF on designated evenings. This service is offered on a first come first served basis for any student athlete needing assistance with any chemistry course offered at Purdue University.

English walk-in hours — The English walk-in tutor is located in the IAF on designated evenings. This service is offered on a first come, first served basis for any student athlete needing assistance with papers and writing projects.

Career Resource Center — Our Library/Career Resource Center is located in the IAF, Room 224. We house career resources and information from each of the 12 academic schools at Purdue. On Sunday evenings, the Library/Career Resource Center is reserved for the English walk-in tutor.

Academic Mentor Program

The Academic Mentor Program was developed to provide our student-athletes with even greater support in meeting their individual academic needs. Every student-athlete presents a different academic need, and our staff wants to ensure all are receiving the necessary academic resources to succeed academically at Purdue. Mentors are individually selected to assist the program and are educated to ensure our mission of academic integrity.

CHAMPS/Life Skills Program

Purdue is committed to providing the support necessary to make its student-athletes as successful as possible in the five commitment areas listed below.

The Purdue CHAMPS/Life Skills program is designed to help student-athletes realize their full personal, academic and athletic potential. Our staff is dedicated to providing the resources necessary to help all Purdue student-athletes realize their goals.

Commitment to Academic Excellence Commitment to Personal Development Commitment to Career Development Commitment to Service Commitment to Athletic Excellence

Program of Excellence

Purdue was a 2004 recipient of the "Program of Excellence" Award. The award is given to universities whose CHAMPS programs have established student-athlete welfare as the cornerstone of their operating principles.

Academic Recognition

President's Cup — At the conclusion of each semester, Purdue University's President presents an award to the athletic team with the highest semester grade point average. The President's Cup was established in 1998.

Provost Award — At the conclusion of each semester, Purdue's Provost presents an award to the athletic team with the most improvement from the previous semester's grade point average. The Provost Award was established in 2004.

Honors Halftime — At halftime of a men's basketball game each February, the athletics department takes the opportunity to publicly recognize all student-athletes who meet the following criteria: Academic All-Big Ten, Academic All-American, All-Big Ten in Sport, All-American in Sport, Team MVP, Big Ten Champions. Approximately 145 student-athletes are recognized each year.

Senior Salute — After four years of achieving in the classroom and on the field, Purdue's senior student-athletes receive a "thank you" from the John Purdue Club. The annual dinner brings together Boilermaker seniors for an evening of recognition and camaraderie. The evening provides the opportunity to recognize senior student-athletes who have achieved academic excellence. Each year a former Purdue student-athlete who has achieved excellence in their chosen career addresses the graduating seniors.

Athletics Director's Honor Roll — Each semester, all student-athletes who have achieved a semester grade point average of 3.50 and higher are recognized on the Athletics Director Honor Roll board.

Coach's Honor Roll — Each semester, all student-athletes who have achieved a semester grade point average of 3.00 to 3.49 are recognized on the Coaches Honor Roll board.

Dean's List — At the conclusion of each semester, the Registrar will indicate which students are scholastically eligible to be included on the Dean's List. The following criteria must be met:

- 1. Have at least 12 credit hours included in the graduation index.
- 2. Have at least 6 hours included in the semester index.
- 3. Attain at least a 3.5 graduation index.
- 4. Have at least a 3.0 current semester index.

Semester Honors —At the conclusion of each semester, the Registrar will indicate which students are scholastically eligible for Semester Honors. The following criteria must be met:

- 1. Have at least 6 credit hours included in the semester index.
- 2. Attain at least a 3.5 semester index.
- 3. Have at least a 2.0 graduation index.

Academic All-Big Ten — At the conclusion of the fall, winter, and spring athletic seasons, the Big Ten Conference honors student-athletes for achieving academic excellence. To be eligible for Academic All-Big Ten selection, athletes must be letter winners in at least their second academic year at their institution and carry a career grade point average (GPA) of 3.0 or better.

Academic All-American — You must be a starter or important reserve with legitimate athletic credentials and have at least a 3.20 cumulative grade point average. You must have completed at least one full academic year and have attained sophomore athletic and academic standing at Purdue University. You must have participated in 50 percent of your team's competitions at the same position. Each individual sport many have other criteria necessary to be named an Academic All-American.

The "25/85" Club

The concept of "25/85" was developed and helped guide a comprehensive review of our athletic facilities. The "25/85" Club refers to an elite class of intercollegiate athletics departments. The term applies to those institutions that finish in the top 25 of the overall National Association of Collegiate Directors of Athletics (NACDA) Directors' Cup standings and graduate 85 percent of their student-athletes. The Directors' Cup is an award representing collective excellence in all varsity sports.

Purdue University is at the doorstep of the "25/85" Club. Over the next five years, energies will be focused on taking the next steps to national prominence.

PURDUE CLUB

The John Purdue Club

Since its inception in 1958, the John Purdue Club has been the home for Purdue's most loyal and devoted fans. Today, the Club is still true to the ideal first envisioned by Fred Hovde and Guy "Red" Mackey: a group of fans who share a passion for the Old Gold and Black and a commitment to providing a Purdue education for student-athletes.

Because Intercollegiate Athletics receives no funding from the state or University budgets, the success of the John Purdue Club is critical to the overall mission of the department. Each year, more than 9,000 Club members generated nearly \$6 million to underwrite the scholarship and academic support costs for student-athletes at Purdue.

John Purdue Club members provide the foundation for success – in the classroom, on the playing fields, and in life after graduation. And Club members provide the foundation of success for Boilermaker Athletics, by demonstrating through their generosity that cheers alone won't support Purdue's studentathletes.

For more information on the John Purdue Club call 800/213-2239.

Endowed Scholarship Program Named for Grobens

The Groben Society is named for Richard "Dick" and Jeannette "Jeanne" Groben of Sarasota, Florida in honor of their generous contributions to the enduring success of Purdue Athletics. With gifts totaling more than \$1.25 million over the past year to help Purdue student-athletes, the Athletics Department has named its endowed scholarship program in honor of Dick and Jeanne.

The Groben Society has been created to exclusively recognize those individuals who share the Groben's vision by investing in leadership created through the student-athlete experience. Members of the Groben Society will be recognized annually at a scholarship function during which they will have the opportunity to interact with their scholarship recipient and other Groben Society members, followed by a recognition ceremony on the floor of Mackey Arena during a basketball game. Each fall, new Groben Society members will be honored on the field at Ross Ade Stadium during a football game. Throughout the year, Groben Society members will be featured in articles in Gold and Black Illustrated, in the John Purdue Club webletter and on its website.

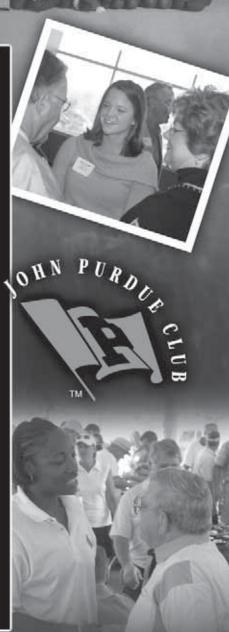

Today, 89 of the athletic department's scholarships are endowed. That number has grown from just 45 in 2002. Through the Goben Society, the plan is to see that number grow to more than 100 over the next few years. Over time, the goal is to endow at least half of the scholarships offered to Purdue's 500 student-athletes.

Jonathan Moore 2008-09 Anderson Family Endowed Scholarship Recipient

John Cummins 2008-09 Mr. & Mrs. James F. Schorr Endowed Scholarship Recipient

Long known as the "mother of astronauts" and a world leader in engineering, science and agricultural education and research, Purdue University also sends its sons and daughters to make a difference around the world and at home in business, government and even entertainment.

Of the more than 400,800 living Purdue alumni, 44 percent reside in Indiana. More than 19,000 call California home, and more than 12,000 reside in Texas; the Hawaiian Islands are home to 740, and 346 live in Alaska.

Purdue graduates are pioneers and achievers in occupations as diverse as being elected to the Australian Parliament, serving as director of the National Science Foundation and heading up Disney Studios. Others have become underwater explorers, traveled the country and world as relief workers with American Red Cross, founded support groups for cancer survivors and operated the largest duckling farm in the United States.

Nearly two-dozen members of the astronaut corps studied at Purdue. Notable among them are Neil Armstrong, Class of 1955, and Eugene Cernan, Class of 1956. Armstrong made history in 1969 as the first man to land a craft and step on the moon; Cernan was the last to leave it in 1972.

Accomplished Alumni

- Humorist and playwright George Ade.
- **Ted Allen**, a food and wine connoisseur and Fab Five member of Bravo TV's Queer Eye for the Straight Guy.
- Astronauts **Neil Armstrong** and **Gene Cernan**, the first to walk on the moon and the last to leave it.
- Former U.S. Sen. **Birch Bayh**, father of former Indiana governor and current U.S. Sen. Evan Bayh.
- Tellabs chairman and Purdue trustee Michael Birck.
- Beth Brooke, Global Vice Chairman, Ernst & Young
- Dr. Rita Colwell environmental microbiologist and scientific administrator
- Former presidential speechwriter and U.S. ambassador to Belize Carolyn Curiel.
- Hall of Fame quarterbacks Len Dawson and Bob Griese.
- Pam Biggs Faerber, founder of national support group for survivors of ovarian cancer.
- Brian Lamb, founder and chairman of C-SPAN.
- Marge Magner, chairman and CEO of Citigroup's Global Consumer Group.
- Elwood Mead, who oversaw the construction of the Hoover Dam.
- Former Indianapolis mayor Bart Peterson.
- George Peppard, actor, best known for his role as John "Hannibal" Smith on The A-Team.
- Julian Phillips, anchor of Fox & Friends Weekend on Fox News Channel.
- The late popcorn king Orville Redenbacher.
- Ruth Siems, home economist with General Foods, inventor of Stovetop Stuffing.
- Faith Smith, president of the only university to be founded and operated by American Indians.
- Rick Smith, General Manager of the Houston Texans in the NFL.
- Cliff Turpin, who helped Orville and Wilbur Wright build and test their first flying machine in 1903.
- Dr. Janice Voss, NASA Astronaut and Science Director for the Kepler Spacecraft
- Hall of Fame basketball coach and All-American John Wooden.

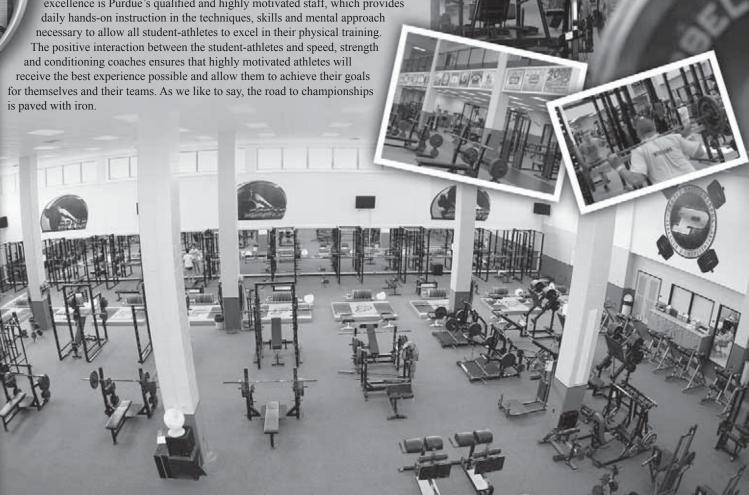

ED, STRENGTH COMDITIONING

An effective speed, strength and conditioning program is essential to success in athletics today. This program has two primary goals: Performance enhancement — to enable the student-athlete to better perform in his or her sport by developing greater speed, strength, explosive power, agility and work capacity and injury prevention to reduce the likelihood of injury by better conditioning the body to withstand the rigors of sport, through effective use of core strength exercises to provide muscular balance; and plyometric exercises and conditioning drills to ensure the fitness of athletes, allowing them to perform at a high level over the course of their competitions. This is a developmental process that occurs over the course of an effective year-round, sportspecific speed, strength and conditioning program.

The Purdue speed, strength and conditioning program addresses those specific concerns by providing an effective training environment for Purdue athletics' greatest assets, its student-athletes. This environment is created by the speed, strength and conditioning staff, in conjunction with each sport coach, to develop a sport-specific training program to enhance those physical characteristics necessary to compete and excel in Big Ten and national competition. This program is implemented in one of the finest training centers in the country. The football, softball, wrestling, baseball, women's basketball, soccer, men's and women's track and field, and men's and women's golf teams train in the nearly 14,000-square-foot Mollenkopf Athletic Center weight room and adjoining indoor football practice field. This facility is fitted with all the equipment necessary to provide quality work for Purdue student-athletes in their respective sports.

Paramount in creating a training environment that will breed physical excellence is Purdue's qualified and highly motivated staff, which provides daily hands-on instruction in the techniques, skills and mental approach necessary to allow all student-athletes to excel in their physical training. The positive interaction between the student-athletes and speed, strength

ATHETIC TRAINING

Purdue University has a long and rich history in health care for the student-athlete and in athletic training education. William E. "Pinky" Newell was the Purdue athletic trainer from 1949 to 1976. He was a founding father of the National Athletic Trainers Association (NATA) and was a leader in the development of formal educational programs in athletic training. His foresight and commitment to the profession and to Purdue student-athletes has placed Purdue among the leaders in care of athletes and the education of athletic trainers.

Purdue University Sports Medicine utilizes onsite daily care by the athletic training staff and team physicians, as well as consultants in orthopedics, dentistry, ophthalmology, neurology, and other medical specialties in Lafayette/West Lafayette and Indianapolis. With a staff of nine athletic trainers and more than 20 physicians and other health science professionals, the Purdue student-athlete's health is well cared for.

Purdue attracts some of the finest athletic trainers in the country. The nine athletic trainers on the Purdue staff were drawn here by the reputation of the athletic training program. Every athletic trainer at Purdue is highly qualified; each has a master's degree, a physical therapy degree or a PhD. Most athletic trainers on the Purdue staff also teach courses in the athletic training education program.

Every Purdue sport has its own staff athletic trainer, along with a complement of athletic training students, to care for Boilermaker student athletes.

The reputation of Purdue's athletic training education program reaches nationwide. Graduates of the program are head and assistant athletic trainers in the NFL, NBA, the Big Ten and the Pac-10, as well as other conferences across the country. They also serve in high schools and clinics in all parts of the United States.

ATHUETIC EACHLITES

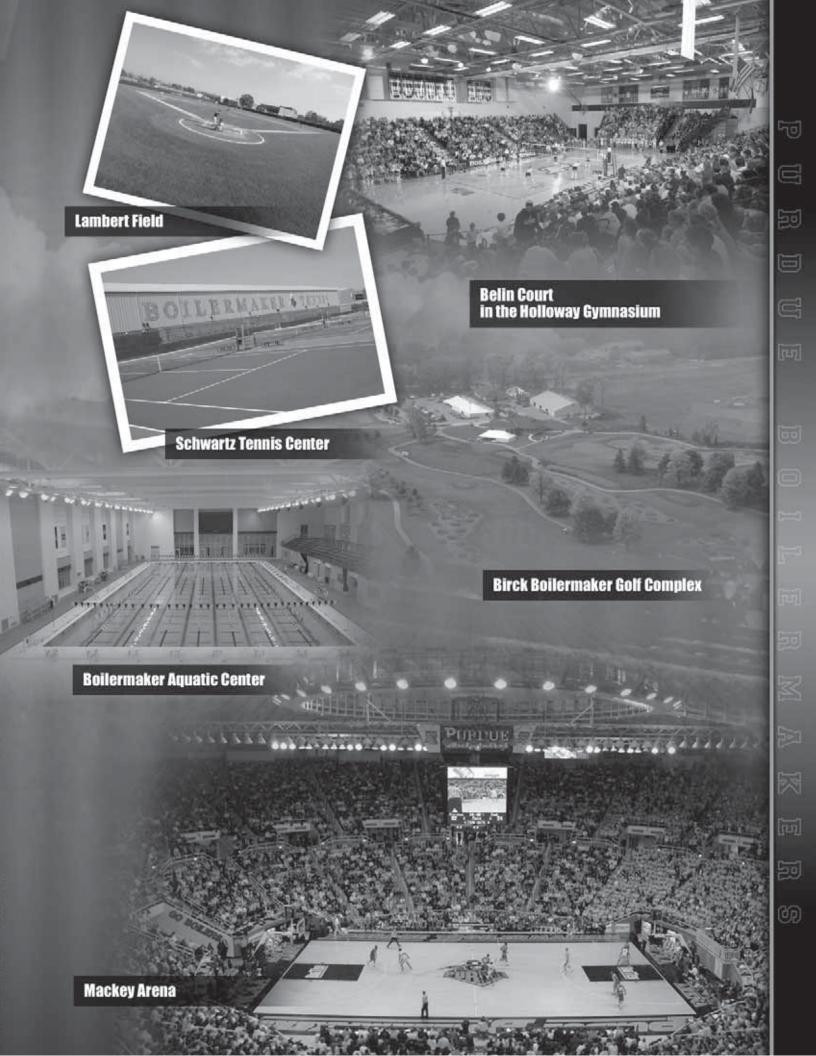

Ross-Ade Stadium

Rankin Track and Field

Varsity Softball Complex

Mollenkopf Athletic Center

Lambert Fieldhouse

ATHLETIC FACILITIES

Purdue baseball has called Lambert Field home since it opened in 1965. The field was named for legendary Purdue baseball and basketball coach Ward 'Piggy' Lambert, who coached the Boilermaker nine in 1917, from 1919 to 1935 and again from 1945 to 1946, compiling a career record of 163-156-7.

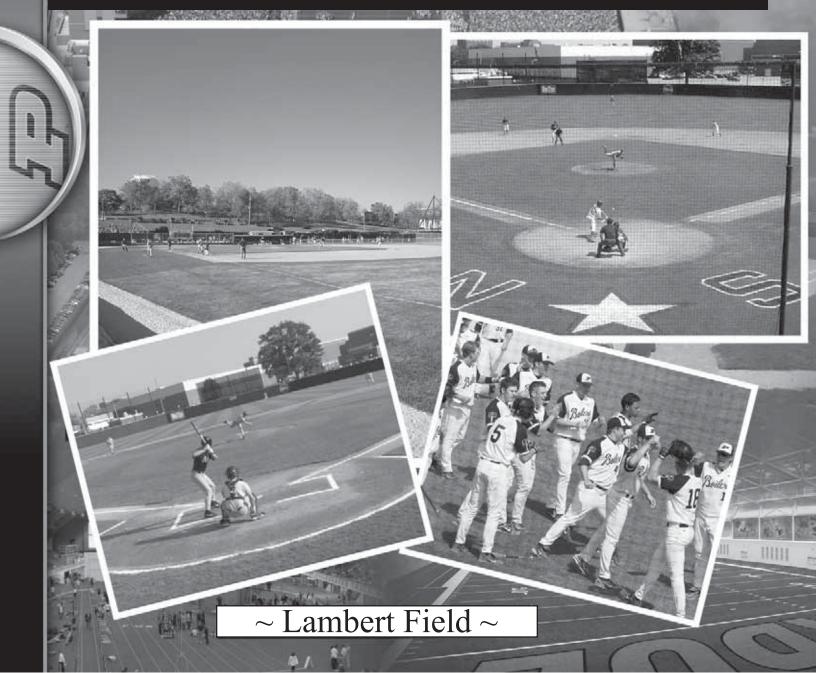

Baseball moved into the confines of Lambert Field in 1965 when construction began on Mackey Arena. The previous home of Purdue baseball was Old Lambert Field, formerly Ross-Ade Field, which was located on Northwestern Avenue adjacent to Lambert Fieldhouse. Prior to 1940, the Boilermakers played home games at Stuart Field, located at the present site of the Elliott Hall of Music.

Lambert Field has a capacity of 1,100 fans and measures 340 feet down the lines, 375 feet to the power alleys and 408 feet to centerfield.

The complex was upgraded after the 1990 season with the addition of the current press box and renovated stands, thanks to the generosity of W. George Eversman, his wife Ruth, sons George H. and Walter, and the support of former varsity baseball players and fans. The scoreboard was installed in 1994, and a yearly Lambert Field renovation plan was introduced in 1999. Among the recent upgrades are a new wooden outfield wall, a screen behind

the wall in left field to protect cars in the adjacent parking lot, an irrigation system in the infield, new bullpens, reconfiguration of the fences in foul territory, and a new backstop.

The most recent improvements to Lambert Field, made in 2004, were a new irrigation system in the outfield, regrading and resurfacing the playing field, and reconstruction of the batting cages along the left field line.

PURDUE HAILL OF FAME

The Purdue Intercollegiate Athletics Hall of Fame currently consists of 90 inductees, with an additional nine scheduled for induction in the fall. An 11-person committee consisting of six former athletes and five administrators selects each class from nominations solicited from fans, athletes and coaches. There is a five-year waiting period from the time a former athlete, coach or administrator leaves Purdue before he or she may be selected. A permanent outdoor display area for the Hall of Fame, located near the message board on the northeast side of Mackey Arena, opened in September of 1995.

successful gridiron unit, its colors were considered. Though actually orange and black, the Princeton colors were known by many as yellow and black. Purdue gridders opted for old gold over yellow, kept the black, and began flying the colors that endure today. Boilermaker Special The official mascot of the Boilermakers is a replica of a Victorian-era locomotive. Conceived by a Purdue student in the 1930s to exemplify the engineering and agrarian heritage of Purdue, the first Special was provided by a group of alumni working in executive positions in the rail and automotive industries. Boilermaker Special I made its debut on the first day of classes in 1940. Then-President Edward Elliott assigned an existing spirit group, the Reamer Club, to maintain and operate "the train," as Reamers have always called the Special. Alumni, students, faculty and staff have raised funds to replace the Special as it has worn out — in 1953, 1960 and, most recently, in 1993. Boilermaker Special V was unveiled on Sept. 25 of the latter year at the Purdue-Notre Dame game. Lafayette semitrailer manufacturer Wabash National took the lead in providing materials and labor to build the newest Special. The "V" is appropriate because Special IV, known as the X-tra Special, was actually the fourth faux locomotive produced. Although each version of the full-size Special has been a total remake, elements of V came from I, including the bell, light and whistle. Built to be roadworthy in each of its four incarnations, the Special appears at all games in Ross-Ade Stadium, travels to away football games and is a favorite at events ranging from parades to birthday parties. The Special made the trip to Pasadena to accompany the Boilermakers to the 2001 Rose Bowl, although it was shipped the 2,100 miles to southern California. X-tra Special Built on a golf cart frame, the X-tra Special goes to all the athletics events that the Boilermaker Special can't, including those in Mackey Arena and Lambert Fieldhouse. The body for the X-tra Special was fabricated in a Department of Aviation Technology lab on the West Lafayette campus. **Purdue Pete** A boilermaker if ever there was one, Purdue Pete first took the field to cheer on the Boilermakers in 1956. Initially, students with tumbling ability were chosen to portray Pete. In those days, Pete had a papier mache head and a bit of padding but was expected to tumble along with the cheerleaders. Today, Pete's head is crafted in the same aviation technology lab that produced the locomotive body of the X-tra Special. In addition to the head, the four students who portray Pete wear shoulder pads and carry a hammer. Pete got his start in 1940 as an advertising icon for University Bookstore, and he continues in that role. He first appeared outside bookstore ads in 1944, when editors of the Debris yearbook put an adapted Pete on each page. For instance, in the home economics section, Pete had a bucket and mop; for civil engineering, he peered through a transit. Purdue Pete lore is filled with tales of wrestling matches against opposing mascots and muggings by opposing fans. Once, on the way back from Iowa, Pete's head blew out of the back of the Boilermaker Special. It was never found. Pete has changed with the times, boasting more than five makeovers through his years rooting on the Boilermakers. 'I Am An American' A proud tradition of Ross-Ade Stadium pregame ceremonies is the reading of this tribute to freedom by Roy Johnson, voice of the Purdue 'All-American" Marching Band. "I am an American. That's the way most of us put it, just matter of factly. They are plain words, those four: you could write them on your thumbnail, or sweep them across this bright autumn sky. But remember too, that they are more than just words. They are a way of life So whenever you speak them, speak them firmly, speak them proudly, speak them gratefully. I am an American." Crimson & Gold Cup For more than a century, two titans of Indiana intercollegiate sports have squared off. As the Purdue-Indiana rivalry flourished and the stakes outgrew mere bragging rights, traveling trophies emerged. The Old Oaken Bucket is at stake each fall on the gridiron. In women's basketball, the Barn Burner Trophy is on the line on the hardwood. And in volleyball, the Monon Spike, named for the railroad that once carried fans to the big games, is in play. In men's basketball, bragging rights are sufficient. Now, when the Boilermakers and Hoosiers tangle, the stakes are higher still. The Crimson & Gold Cup, which debuted in 2001-02, takes the storied rivalry to epic heights, with Olympic sports and revenue sports each carrying a point to the winner. At the end of the academic year, the points are tallied and the winner is awarded the Crimson & Gold Cup. In addition, miniature versions of the trophy go to the head-to-head winner in each sport. For ties, each team gets one-half point. If the two teams do not meet during the regular season, the higher finisher in the Big Ten championships is the Crimson & Gold Cup sport champion. Indiana and Purdue split the 2007-08 intercollegiate season series as both schools earned 10 points each. The Boilermakers won four of the final five points, including two during the outdoor track season, as they fought back from a 9-6 deficit.

A meeting of seven Midwest university presidents on January 11, 1895 at the Palmer House in Chicago to discuss the regulation and control of intercollegiate athletics, was the first development of what would become one of organized sports' most successful undertakings. Those seven men, behind the leadership of James H. Smart, president of Purdue University, established the principles for which the Intercollegiate Conference of Faculty Representatives, more popularly known as the Big Ten Conference, would be founded.

At that meeting, a blueprint for the control and administration of college athletics under the direction of appointed faculty representatives was outlined. The presidents' first-known action "restricted eligibility for athletics to bonafide, full-time students who were not delinquent in their studies.'

This helped limit some problems of the times, especially the participation of professional athletes and "non-students" in the university's regular sporting events. That important legislation, along with others that would follow in the coming years, served as the primary building block for amateur intercollegiate athletics.

Eleven months after the presidents met, one faculty member from each of those seven universities met at the same Palmer House, and officially established the mechanics of the "Intercollegiate conference of Faculty Representatives", or "Big Ten Conference" of "Western Conference."

Those seven universities were: University of Chicago, University of Illinois, University of Michigan, University of Minnesota, Northwestern University, Purdue University and the University of Wisconsin. Indiana University and the State University of Iowa were admitted in 1899. Ohio State joined in 1912. Chicago withdrew in 1946 and Michigan State College (now Michigan State University) was added three years later in 1949.

After a 40-year period of constancy in membership, the Conference expanded to 11 members for the first time. On June 4, 1990, the Council of Presidents voted to confirm its earlier decision to integrate Pennsylvania State University into the Conference.

At the turn of the century, faculty representatives established rules for intercollegiate athletics that were novel for the time. As early as 1906, the faculty approved legislation that required eligible athletes to meet entrance requirements and to have completed a full year's work,

along with having one year of residence. Freshmen and graduate students were not permitted to compete, training tables (or quarters) were forbidden, and coaches were to be appointed by university

Wisconsin

bodies "at modest salaries."

Football and baseball were the popular sports prior to 1900. Wisconsin won the first two football championships and Chicago claimed the first three baseball titles. The first "official" sponsored championship was in out-door track. It was held at the University of Chicago in 1906 with Michigan earning the title.

Today, the Big Ten sponsors 25 championships, 12 for men and 13 for women. There

have been many different athletic events popularized on Big Ten campuses. Some became extremely popular - football and basketball, for example. Others, like boxing, fell by the

The office of the commissioner of athletics was created in 1922 "to study athletic problems of the various Western Conference universities and assist in enforcing the eligibility rules which govern Big Ten athletics." Major John L. Griffith was appointed as the first commissioner and served in that position until his death in 1944. Kenneth L. "Tug" Wilson, former director of athletics at Northwestern, served from 1944 until he retired in 1961. Bill Reed, an assistant commissioner since 1951, succeeded Wilson until his death in 1971. Wayne Duke became the fourth Big Ten commissioner in 1971 and retired June 30, 1989. Duke was succeeded by James E. Delany on July 1, 1989. Delany came to the Big Ten following 10 years as Ohio Valley Conference

Commissioner

BIG TEN FACTS

- . Big Ten Universities are members of the nation's only conference whose constituency is entirely composed of institutions that are members of the AAU, a prestigious association of major academic and research institutions in the United States and Canada.
- · Big Ten Universities have more than four million living alumni and over 300,000 undergraduate students attending Big Ten universities
- Big Ten Universities house on their campuses 10 of the nation's 35 largest academic libraries. Collectively, conference libraries hold nearly 70 million bound volumes and the institutions work collaboratively to build and share their resources with other league members.
- Since 1992, the Big Ten has created in excess of 2,000 new opportunities for women student-athletes and established 28 new women's teams.

- Big Ten universities provide approximately \$94 million in direct financial aid to more than 8,400 men and women student-athletes who compete for 25 championships, 12 for men and 13 for women. Conference institutions sponsor broad-based athletic programs with more than 270 teams.
- See their student-athletes graduate at a rate nine percent higher than all Division I student-athletes
- . The Big Ten recognized 2,018 Academic All-Big Ten honorees during the 2006-07 academic year, the highest total in the last decade. Over the past five years, the Conference has annually acknowledged more than 1,800 student-athletes as Academic All-Conference honorees.
- . "Big Ten Conference schools are among the national attendance leaders in football, men's and women's basketball and women's volleyball. During 2006-07, more than 8.7 million fans attended Big Ten home contests in those sports.

"Eleven schools, 252 varsity teams, one great network to cover it all. featuring the games, passion and tradition of the nation's foremost - Dave Revsine, August 30, 2007, first words ever spoken on the Big Ten Network

The Big Ten Network is dedicated to covering the Big Ten Conference and its 11 member institutions. The Big Ten Network provides unprecedented access to an extensive schedule of conference sports events and shows; original programs in academics, the arts and sciences; campus activities; and associated personalities. Sports programming includes live coverage of more events than ever before, along with news, highlights and analysis, all complemented by hours of universityproduced campus programming.

The Big Ten Network is a joint venture between subsidiaries of the Big Ten Conference and Fox Cable Networks. The Big Ten Network reaches a national audience through distribution arrangements with approximately 240 cable and satellite companies.

In its "freshman season," the Big Ten Network televised more than 400 live events, plus hundreds of hours of original programming, classic games, coaches' shows and campus programming. Virtually all of the network's live event programming is available in high definition.

The network is led by President Mark Silverman, a former Disney executive who came to the network after serving as the general manager and senior vice president of ABC Cable Networks Group since April of 2004, managing the company's equity in such channels as Lifetime Television, A&E Network and the History Channel, each of which recorded their best financial performance in 2005. Silverman was also responsible for developing and launching new cable channels, shows and other key initiatives.

Located in the historic Montgomery Ward building in Chicago, the Big Ten Network is the first national television network to call the largest city in the Midwest its home. The original section of the building was designated as a historic landmark in 2000 for its significant role in American retail history. The space includes two studios and three control rooms as well as a 20,000 square-foot office space.

In May of 2007, the Big Ten Network announced its first on-air hire, signing ESPN college sports expert Dave Revsine to be its lead studio host. Revsine joined ESPN in October of 1996 as an anchor for ESPNews and filled a variety of roles for the network over the past 10 years. The on your favorite student-athletes and all the latest happenings in the Northwestern graduate has anchored SportsCenter, hosted ESPN Radio's Big Ten, log onto BigTenNetwork.com. The network's online home College GameDay for the last six years and hosted ESPN Radio's coverage also contains statistics, schedules and more. of several BCS Championship games. He also hosted studio halftimes for basketball and co-hosted ESPN's coverage of the last two men's Final Fours.

In addition to airing more coverage of Big Ten sports than ever before, the Big Ten Network will also provide numerous benefits to communities around the Big Ten. Those include increased exposure for women's sports, providing positive role models for girls; a greater economic impact to the communities from added sporting event production, with the potential to generate higher attendance; and greater national exposure for the excellence that surrounds the academic endeavors of Big Ten universities, some of the term multimedia agreement for Comcast to carry Big Ten Network most highly regarded in the nation. Also, an internship program at each of the 11 universities will offer students training for careers in sports, television and entertainment.

The Big Ten Network is a joint venture between subsidiaries of the Big Ten Conference and Fox Cable Networks. For more information regarding the Big Ten Network, visit BigTenNetwork.com.

Big Ten Network President Mark Silverman (from left), Fox National Cable Sports Networks President Bob Thompson, Chicago Mayor Richard M. Daley, Big Ten Commissioner James E. Delany and Illinois Department of Commerce and Economic Opportunity Director Jack Lavin announce the official Big Ten Network headquarters location at the historic Montgomery Ward building in Chicago.

Big Ten and Comcast Reach Agreement

Comcast Corporation and the Big Ten Network announced a longprogramming across television, broadband and video-on-demand in time for the 2008-09 school year.

Under the terms of the agreement, Comcast launched the network as part of its expanded basic level of service to promote it to the majority of its customers residing in states with Big Ten universities starting Aug. 15. In spring 2009, Comcast may elect to move the network to a broadly distributed digital level of service in most of its systems in these states.

STIFF X 3 PERFORMANCE

A POWER TRIO BUILT ON EXTREME PERFORMANCE TECHNOLOGY.

When it comes to bat handles, stiffer is better.

We've proven that year after year in championship after championship. Now, we've taken stiff-handle bat design to an extreme level with the Triton, H2" and Exogrid®.

These three power hitters get their performance from maximum handle stiffness. A stiffer handle produces more barrel flex, resulting in outstanding performance.

See what Slugger stiffness can do for your game. Swing the Triton, H2 or Exogrid today.

EXOGRID®

The innovative
Exogrid delivers power
and performance through
handle stiffness and strength.
A time-tested performer that
has been proven in championship
after championship.

H2"

The next step in hybrid technology.
The H2's stiff handle and transition produces
exceptional alloy barrel flex for great
trampoline effect and performance.

TRITON

Unique 3-zone design allows the barrel and handle to be designed and built as individual units. Exclusive Bubble Transition Zone brings everything together to function as an advanced 1-piece bat.
