### TIPS FOR CREATING ACCOUNTS:

Step 1: Make sure you are using a school-specific link! Otherwise, discounted pricing will not be available.

Step 2: Create your Account

Step 3: Choose a plan

If a student creates an account **using their .edu email address**, they will see these options:

If a non-student creates an account **using your school link**, they will see these options:

Choose Plan

### **CANCELLATION POLICY:**

Step-by-step instructions for canceling a subscription can be found [here](#). This is regardless of subscription type (monthly or annual). When someone cancels their subscription they will lose premium access at the end of their billing period, and the renewal process is stopped. After they cancel, they can see the exact date their subscription will end by clicking "Manage" on the subscription page in account settings.

However, if someone accidentally selected an annual subscription, and doesn't want an annual subscription, our Customer Support team can downgrade them to a monthly subscription and refund the difference by reaching out to our Customer Support team [here](#).
