

High School Coaches Clinic

This clinic is being designed specifically for high school coaches. Anyone is welcome to attend, but we will be focusing on skills and drills you can use at the high school level.

Bring your sticks because this is going to be an active clinic. We will be on the field for hands on demos of stick skills, shooting, as well as on and off ball attack and defense. Essentially we are going to coach you like you were our players, minus the conditioning of course ;) The best way to learn something is by actually doing it yourself. We will be breaking down many of the skills necessary to become a successful lacrosse player and give you specific details on how to instruct your players. We will also be covering many team concepts you can introduce to help your kids play as a more successful unit.

We have one simple goal for this clinic – to have you walk away saying, “WOW!”

We have a great deal of new lacrosse coaches in Central Florida whom we would love to meet. We would also love for you to have the opportunity to formally meet our newest DI Women’s Lacrosse Program and Coach Nicole Moore.

Nicole will be an outstanding addition to women’s lacrosse in the state of Florida and we are lucky to have someone of her experience and character to build the Stetson program. It’s another great opportunity for players in the state of Florida to pursue. I have known Nicole for several years and she is truly one of the best young coaches in the game.
