**Kansas Head Coach Bill Self:**

*On the battle of the blue bloods...*

"We were really good today. We were ready to play and locked in. We made some mistakes defensively with our traps, but for the most part our traps and ball screen defense were really good and much improved. Our hands were active, and Jalen goes 4-of-18 in large part because Trayce (Jackson-Davis) got nine blocked shots, all on his misses. They did a really good job defensively, taking away what could have been several more scoring opportunities for us, just on his individual defensive effort. Gradey was great, Kevin was fantastic, KJ was terrific, Dajuan was terrific, and it was the best our bench has been all year."

**Indiana Head Coach Mike Woodson:**

*On the disappointment of today's game...*

"It hurts because I thought this week's practice was great. We did a lot of things to prepare for this game, so I look at teams like Xavier and North Carolina, two teams that we beat and the two teams we lost to, Rutgers and Arizona, and earlier today, that's not how I want to play. Somehow I got to get this team to understand that you are playing a top notch team and the other team isn't top notch then you guys gotta do something to change that."
