2007 Outlook

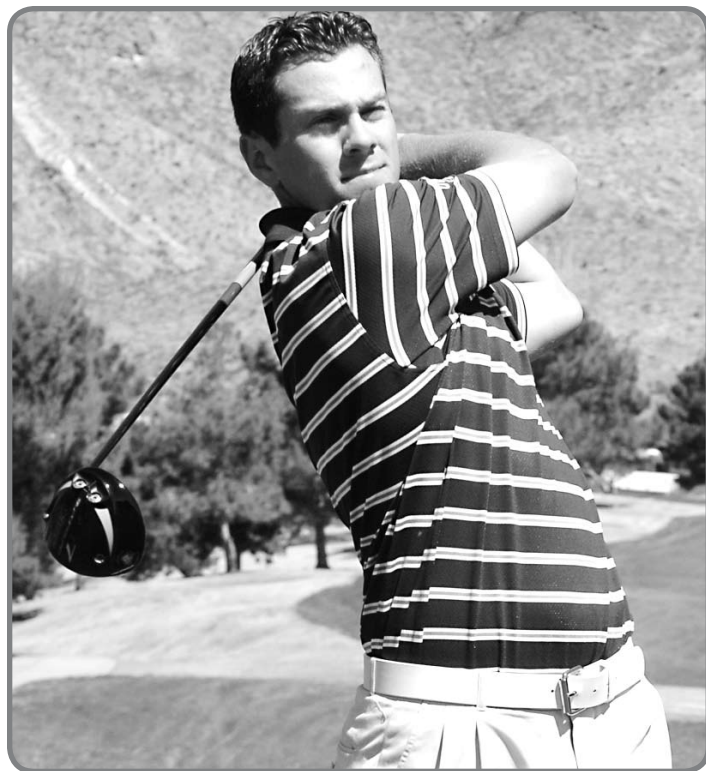

Rick Todd has a nice mix of talented veterans and promising newcomers at his disposal in his eighth season as head coach of the UTEP Miners.

The 2007 UTEP roster features only one senior, but he is a good one – **Colby Lindsay**, who earned Academic All-American honors a year ago. Lindsay ranked second on the team with a 72.9 stroke average during the 2005-06 campaign.

UTEP's juniors are **Facundo Gutierrez**, **Zac Hildenbrand** and **Manuel Torres**. Torres is the most experienced of the group, having played in 18 tournaments over the last two years. Hildenbrand missed the entire 2005-06 season due to arm surgery. When healthy, he has been an outstanding performer for the Miners. He fashioned a 72.6 stroke average two years ago, including tying for fourth place at the Wyoming Cowboy Classic.

Six underclassmen round out the Miner roster – sophomores **Chad Keohane**, **Roger Sloan**, **Tanner Taff** and **Josh Taylor** and freshmen **Travis Moore** and **David Murray**.

Keohane and Sloan received extensive tournament experience as freshmen, appearing in nine and 11 events respectively. Keohane led UTEP with a 73.1 stroke average in the fall. Like Moore and Murray, Taylor is new to the team after transferring from the University of British Columbia. He is one of four Canadian natives on this year's Miner squad.

Colby Lindsay is the only senior on this year's UTEP team.

2007 Roster

Name	Year	Hometown (High School)
Facundo Gutierrez	JR	Santiago, Arg. (Franklin [El Paso, Texas])
Zac Hildenbrand	JR	Summerland, B.C. (Summerland Secondary School)
Chad Keohane	SO	Needham, Mass. (Pendleton School [Bradenton, Fla.])
Colby Lindsay	SR	Abbotsford, B.C. (Rick Hansen Secondary School)
Travis Moore	FR	El Paso, Texas (Franklin)
David Murray	FR	San Antonio, Texas (Ronald Reagan)
Roger Sloan	SO	Merritt, B.C. (Merritt Secondary School)
Tanner Taff	SO	El Paso, Texas (Coronado)
Josh Taylor	SO	Abbotsford, B.C. (Yale Secondary School/Univ. of British Columbia)
Manuel Torres	JR	El Paso, Texas (Franklin)

Coach Rick Todd

A former All-American at UTEP, Rick Todd is in his eighth year as the Miners' head coach.

UTEP has finished in the top three at the conference championship three times in the last five years. Two Miners have earned All-America honors under Todd's tutelage (Chris Baryla, Dan Swanson) and Colby Lindsay, a senior on this year's team, was a 2006 Academic All-America honoree. UTEP has captured three tournament titles under Todd's direction.

The Miners garnered a runner-up showing at the Western Athletic Conference Championship in 2002. UTEP was 11th at the 2003 NCAA

West Regional, missing qualifying for the NCAA Championship by one stroke.

The Miners last made an NCAA team appearance in 1995. UTEP has enjoyed a storied history in men's golf, ranking among the nation's top 20 schools every year from 1987-91. The Miners were national runner-up in 1988. Todd is working hard to return this proud program to the forefront of collegiate golf.

The 2003-04 Miners were led by All-American Chris Baryla, who fashioned a 70.6 stroke average and participated in the NCAA Championships as an individual. Baryla was tabbed the WAC Freshman of the Year and notched his fourth career individual title at the Barona Collegiate Cup. He closed out his career as a three-time first team All-WAC pick.

UTEP recorded second-place showings at three tournaments during the 2003-04 season, and landed in the top three at seven events during the 2002-03 campaign.

Baryla and Dan Swanson were both tabbed PING All-Americans at the conclusion of the 2002-03 campaign. They join Nathan Fritz as the three Miners to claim tournament individual medalist honors under Todd.

Todd was named WAC Coach of the Year following the 2000-01 season after directing UTEP to a fourth-place showing at the conference championship.

Todd claimed second team All-America honors as a senior in 1986, and third team as a junior. He was an honorable mention All-America choice as a sophomore.

A four-time first team All-WAC selection, Todd had a 74.1 stroke average during his collegiate career, including a low of 73.1 during the 1983-84 season - his second year in the Miner orange and blue. He won four tournaments at UTEP - the Stanford Fall Invitational and New Mexico State Invitational in 1984, and the Arizona-Michelob Invitational and UCLA-Bill Bryant Invitational in 1986. Todd shattered Tom Watson's tournament record score at the Stanford Fall Invitational. He was elected to the El Paso Golf Hall of Fame in 1984. Todd enjoyed 10 top-three finishes during his UTEP career, and 20 top-10 showings.

A native of Toronto, Canada, Todd parlayed his exceptional college career into a stint on the professional circuit. He participated in the U.S. Open in 1998, and the British Open in 1996. He is a former Canadian Tour, Asian Tour, Nike Tour and Ben Hogan Tour member. Todd won the Payless Victoria Open tournament in 1997, and the Ben Hogan Dakota Dunes Open in 1991. He was a member of Canada's World Cup and Dunhill Cup teams in 1996.

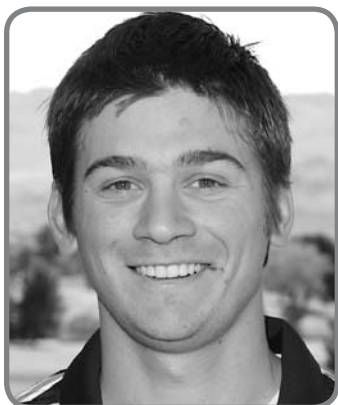

Todd earned his bachelor of business administration degree in marketing from UTEP in 1986. He was born on Oct. 3, 1962. Todd and his wife, Darci, have a nine year-old daughter, Shelbi.

UTEP's Home Courses

The UTEP men's golf program is extremely fortunate to have at its disposal a number of excellent golf facilities in the El Paso area.

One of the big advantages the UTEP program has is the opportunity to play such a diverse array of courses. And the UTEP golf program receives tremendous support and cooperation from the different club presidents and head pros.

These are the facilities made available to the UTEP golf program during the season.

Coronado Country Club

Coronado Country Club, founded in 1959, is one of the most beautiful and challenging courses in El Paso.

The course is located just minutes from downtown El Paso, nestled on the west side of the beautiful Franklin Mountains, at an elevation of 4,700 feet. Coronado Country Club offers a panoramic view, overlooking three states and two countries.

The course has served the Miners for many years and is well-known for its good relationship with UTEP. The course is 6,485 yards in length and is especially known for its fast greens and hilly terrain.

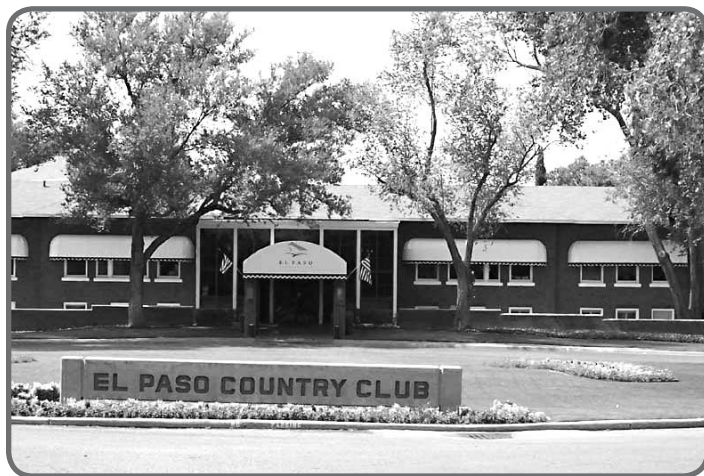

Coronado has hosted many professional and amateur events over the years, as well as the Western Athletic Conference Championship. The Hogan Tour made the course a part of its season twice, and the course has hosted three men's Southwestern Amateur Events. The course served as the 1990 Western Athletic Conference Championship host course, in which UTEP placed second.

Danny Swain is the pro at Coronado Country Club. The current course record of 60 is held by Steve Haskins, the son of former UTEP Hall of Fame basketball coach Don Haskins.

El Paso Country Club

After a century, the El Paso Country Club – the oldest golf course in El Paso – is still one of the most-beautiful, yet demanding courses in the Sun City.

Opened in 1906, El Paso Country Club boasts a 6,781-yard, par 71 course, known for its fast greens and lush fairways. The course is primarily flat, but very demanding, as it requires a good degree of accuracy off the tee and for shots played into the greens. The course is located in the Rio Grande River Valley on the west side of El Paso.

El Paso Country Club

Lone Star Golf Club

Mark Pelletier is the current Director of Golf at EPCC. Former Miner Todd Fields owns the course record with a 60. The tournament is the home of the prestigious Western Refining All-American Tournament held each fall. Included among the alumni of the tournament are some of the greatest golfers of our age, including Tiger Woods, Davis Love III, Corey Pavin, Mark O'Meara, Curtis Strange, Steve Elkington, Justin Leonard, John Daly, David Duval and former UTEP head coach Tim Norris, who won the event in 1979.

Emerald Springs Golf Course

In a short period of time Emerald Springs Golf and Conference Center has become a competitive facility in the El Paso area. With lush greens and a completely remodeled clubhouse and renovated golf course, "El Paso's Newest Golfing Experience" boasts a bonafide 18-hole championship golf course that any golfer would find challenging, yet exciting.

Mike Healy, the club professional, offers PGA instruction, as well as a fully-stocked pro shop, a putting green and a driving range. But Emerald Springs is more than a golf course. There are four championship tennis courts located on the grounds, and if it is swimming you desire, an Olympic-size pool is available. There is also a full-service restaurant, banquet facilities, catering and an executive board room for conferences and seminars.

Luis Delgadillo owns the course record of 62.

Lone Star Golf Club

A beautifully-manicured, narrow, tree-lined par-71 municipal golf course, Lone Star Golf Course measures 6,805 yards in total distance. Lone Star is conveniently located within five minutes of the El Paso International Airport.

Lone Star offers a full range of golfing services, including a lit driving range, electric golf carts and private or group instructions from PGA professionals. Lone Star also features the Sandtrap Bar and Grill, a full-service bar and restaurant specializing in homemade Mexican food and draft beer chilled to 29 degrees.

Mike Singleton is the club pro at Lone Star. Mark Pelletier, the brother of UTEP women's golf coach Jere Pelletier, owns the course record with a spectacular 62.

Painted Dunes Desert Golf Course

Painted Dunes Desert Golf Course

One of the newest golf courses in El Paso, this 18-hole marvel on the east side of the city is both beautiful and challenging. It is one of the longest courses in town, covering 6,925 yards in length with a par of 72.

Opened in March of 1991, the course has received local and national acclaim. Shortly after it was built, Golf Digest named it as one of the best daily fee courses in the U.S. Golf Digest also ranked the course as the second-best public golf course in the nation in 1997. It was also ranked number one among public golf courses by The Dallas Morning News in 1998.

The course features modern-style greens with pot and grass bunkers, and is known for its desert layout. The course is one of the toughest the Miners utilize for practice. Luis Delgadillo is the club professional

The current course record is 60, set by Rex Caldwell.

Santa Teresa Country Club

Santa Teresa Country Club

Located 13 miles from downtown El Paso and just 11 miles from the UTEP campus, Santa Teresa Country Club in Santa Teresa, N.M. has two wide-open 18-hole courses – both private – at its disposal. The Yucca and the Spanish Dagger have rolling fairways with a smattering of trees just for excitement. To keep the golfer honest, both courses at the Santa Teresa Country Club have plenty of fairway bunkers and greens surrounded by traps, as well as four or five holes on each course where water comes into play.

The Yucca is a par-72 with distances varying from 7,150 yards to 6,893, depending on the tees. As for the Spanish Dagger, it, too, is 72 par, with two different distances: 6,780 and 6,237.

Santa Teresa Country Club has meeting rooms and tennis courts for members and visitors. Also on the grounds are two restaurants: The Cantina, which is a sports bar, and The Piano Room.

The Director of Golf at Santa Teresa Country Club is R.C. Ordish, who is a PGA-certified instructor of golf. Chris Thomas is the golf pro. The staff is available for private or group lessons.

Thomas holds both course records – 62 on the Yucca and 61 on the Spanish Dagger.

Underwood Golf Complex

Underwood Golf Complex Sunrise and Sunset Courses

The Underwood Golf Complex, located at Fort Bliss Military Base in El Paso, is one of the homes of the UTEP golf team.

The complex includes two 18-hole golf courses, the 6,629, par-72 Sunset Course and the 6,942 yard, par-72 Sunrise Course.

Built in the 1940's, the Sunset Course at the Underwood Golf Complex was originally a public course, but was taken over by the military in May of 1953. Since then it has been exclusively a military course. Former UTEP men's golfer Ryan Hietala holds the current course record from the gold tees with a 10-under par 62.

The Sunrise Course was added to the complex in April of 1995. Bobby Kaerwer is the head pro. Former Miner golfer Rich Mayo holds the record on the Sunrise course with a 62.

Century Club

The UTEP golf program would like to thank the following companies and individuals for their support during the year.

Guide To The NCAA Rules For Alumni, Faculty And Friends

“Institutional control” of athletics is a fundamental requirement of NCAA legislation. As such, the University of Texas at El Paso is responsible for ensuring that members of the faculty and staff, coaches, student-athletes, alumni, donors, boosters and friends of the institution comply with all applicable NCAA rules. The information below is intended to provide a basic overview of NCAA rules governing UTEP alumni, faculty and friends. Because of the complexity of the rules, the following does not include all applicable situations and should not be relied upon exclusively. UTEP appreciates your interest and support but reminds you that an inappropriate contact or an inadvertent action on your part can jeopardize the eligibility of a prospective or enrolled student-athlete and the university. If you have specific questions, please contact the Athletics Department’s Compliance Office at (915) 747-8607.

You Are Considered A “Representative Of UTEP’s Athletics Interests” (i.e., a booster) If You:

- Have ever made any type of financial or in-kind contribution to the athletics department, to a specific sport program, or to an athletics booster organization, including purchasing season tickets to athletics events.
- Are or have been a member of any organization or agency promoting UTEP athletics.
- Have ever helped to arrange or have provided employment for an enrolled student-athlete, a prospective student-athlete, or their parents or relatives.
- Have ever assisted in any manner in the recruitment of prospective student-athletes.
- Have ever provided benefits to enrolled student-athletes or their families.
- Have otherwise promoted the institution’s athletics program in any manner.

Once you become a booster, you retain that status FOREVER!

A prospective student-athlete (a prospect) is any person who has begun classes for the ninth grade. A prospective student-athlete remains a prospect even after he or she has signed a National Letter of Intent or accepts an offer of financial aid to attend UTEP. The prospect remains a prospect until they report for the first day of classes for a regular term (fall or spring), they participate in a regular squad practice or competition, or they officially register and enroll and attend classes during the summer prior to initial enrollment and receive institutional athletics aid.

Boosters Are Prohibited From:

- Contacting a prospect in person on or off our campus.
- Writing or telephoning a prospect or a member of the prospect’s family.
- Making arrangements for a prospect or the prospect’s relatives or friends, to receive money or financial aid of any kind.
- Providing transportation for a prospect or the prospect’s relatives or friends to visit our campus.
- Providing free tickets or tickets at a reduced cost for prospects or the prospect’s relatives or friends to attend an athletic event.
- Entertaining high school, preparatory school or community college coaches.

Boosters Are Permitted To:

- Notify our coaches about prospects that may be strong additions to our teams.
- Attend high school or two-year college athletic contests or other events where prospects compete, however, boosters may not contact the prospect or the prospect’s relatives.
- Continue existing friendships with families of prospects, but boosters may not attempt to recruit the prospect.
- Employ a prospect after they have graduated from high school or a two-year college.

Rules Governing Contacts With And Benefits For Student-Athletes

NCAA legislation expressly prohibits University supporters from providing “extra benefits” to enrolled student-athletes or their families. An extra benefit is any special arrangement to provide a student-athlete or his/her family a benefit not authorized by NCAA legislation. In general, boosters may not provide anything or make special arrangements for student-athletes or their families that are not available to the general student population.

Examples Of Prohibited “Extra Benefits” Include, But Are Not Limited To:

- Providing cash or loans in any amount.
- Signing or co-signing for a loan or guarantee of bond.
- Use of an automobile or other personal property (e.g., boats, summer homes, stereos).
- Gifts of any kind, including birthday cards, flowers, holiday gifts and gifts of clothing or equipment.
- Any tangible items, including merchandise.
- Free or reduced-cost services, rentals, or purchases (e.g., car repairs, legal services, haircuts, meals at local restaurants).
- Purchasing complimentary admissions from a student-athlete.
- Providing an honorarium to a student-athlete for a speaking engagement.
- Providing typing services or other costs associated with school projects or reports.

Boosters MAY provide enrolled student-athletes with an occasional home meal, provided the meal takes place at the booster’s home and NOT at a local restaurant establishment. The meal may be catered and must be limited to infrequent or special occasions. The Compliance Office must approve all such meals.

Compliance with NCAA rules is of the highest priority for our athletics program and institution. Even the best-intentioned action on your part may be a violation of NCAA rules. Please **remember to ASK before you ACT.**

Dr. Diana Natalicio

UTEP President

UTEP President Diana Natalicio says the university's achievements demonstrate that there does not have to be a trade-off between access and excellence.

"We set off on our own path to demonstrate that access and excellence are not only compatible in a setting like UTEP, they are reciprocally beneficial and essential to both our local success and our national reputation," Natalicio says.

"And we achieved this recognition by being true to a mission that has focused on creating top-quality educational opportunities for the residents of the Paso del Norte region."

In fact, Hispanic Outlook in Higher Education magazine recently ranked UTEP among the top three universities in the nation in educating Hispanics, and among the top 10 in awarding undergraduate and graduate degrees to Hispanics.

This success and recognition continues to grow under Natalicio's leadership.

Natalicio first arrived at UTEP as a faculty member in 1971, and was later named chair of the Department of Modern Languages, dean of the College of Liberal Arts and vice president for academic affairs.

She was named the university's first woman president in 1988, and has since embraced the university's mission of providing access and excellence as the driving force behind its achievements.

"We have learned that playing the hand we are dealt, rather than wishing for another set of cards, is the key to our success," she says.

Through her unwavering passion and dedication, Natalicio has led UTEP through nearly two decades of its most notable growth.

During her distinguished career as president:

- **Enrollment** has grown to nearly 20,000 students, about 90 percent of whom are from this region, and more than 70 percent of them Hispanic
- **Annual budget** has tripled to \$240 million
- **Research expenditures** have grown from less than \$5 million to \$36 million annually, ranking us among the top three academic institutions in the UT System in research spending
- **Doctoral programs** have grown from one to 14, with more in development

Natalicio says the years ahead hold much more success for the university.

"We are creating new trails, rather than walking on well-trodden paths," she says. "To be sure, such trail blazing presents some additional risks, but it is a far more interesting journey, with far greater potential benefits."

Natalicio's role as a leader in higher education goes beyond UTEP, however.

She serves on numerous national boards and commissions, including the Rockefeller Foundation Board of Trustees, and the National Science Board (appointment by President Bill Clinton), where she served two six-year terms and three two-year terms as vice chair.

In addition, she serves on the board of governors of the U.S.-Mexico Foundation for Science, the board of trustees of Internet2, the board of directors of the Sandia Corporation, Trinity Industries and the National Action Council for Minorities in Engineering. She has served on the NASA Advisory Committee (NAC), and was appointed by President George H.W. Bush as a member of the Advisory Commission on Educational Excellence for Hispanic Americans.

In recognition of her success in building strong partnerships between UTEP, the El Paso Community College and school districts in the Paso del Norte region, Natalicio received the Harold W. McGraw, Jr. Prize in Education in 1997.

She was inducted into the Texas Women's Hall of Fame in 1999, was honored by the Texas Exes with the Distinguished Alumnus Award at The University of Texas at Austin in 2006 and is the recipient of honorary doctoral degrees from Smith College and the Universidad Autonoma de Nuevo Leon.

A graduate of St. Louis University, Natalicio earned a master's degree in Portuguese and a doctorate in linguistics from the University of Texas at Austin.

UTEP Programs in the National Spotlight

The University of Texas at El Paso has become a national model of excellence in higher education, receiving national and international recognition and support for its academic and research programs.

- **UTEP ranks among the top three** UT System academic institutions in research spending (about \$36 million a year).
- The Texas Legislature recently authorized UTEP to borrow \$76.5 million for **new engineering and physical science facilities**, furthering the research potential at the university by doubling existing outdated labs, accommodating growth and increasing collaborative research in chemistry, physics, biology and engineering.
- **The Biosciences Research Building**, now under construction, will house a Vivarium and a BSL3 Laboratory, enhancing research capabilities in this field and upgrading existing labs, such as the recently created **DNA Sequencing and Analysis Core Facility**.
- **Nanotechnology research**, including upgraded semiconductor clean rooms and wireless communications laboratories, is a new venture at UTEP thanks to a \$1 million gift from the Texas Instruments Foundation.
- **The National Institute of Environmental Health Sciences** this year awarded UTEP \$5 million to study, in partnership with the UNM Health Sciences Center, the relationship between air, soil, and household environments in asthmatic children in El Paso.
- **The W.M. Keck Border Biomedical Manufacturing and Engineering Lab**, established in 2002 with a \$1 million grant from the W.M. Keck Foundation, offers biomedical modeling and tissue engineering, and rapid-prototyping services.
- **UTEP received \$1.9 million federal award to establish a Regional Geospatial Service Center** to provide maps and geographic information system (GIS) databases to assist with emergency planning and response.
- **PACE Partner:** UTEP received a \$169 million in-kind donation of computer-aided engineering software and equipment in spring 2005, joining an elite group of universities under the **Partners for the Advancement of Collaborative Engineering Education** program. PACE members include General Motors, EDS, Sun Microsystems and UGS.
- **Internet2:** UTEP launched a new high-capacity network in spring 2005, opening the door to unprecedented collaboration between numerous universities and research centers across the U.S. and Mexico.
- **The Hispanic Health Disparities Research Center** is an initiative in cooperation with the UT Houston Health Science Center funded through a \$4 million grant from the National Institutes of Health.
- UTEP is one of only 11 universities nationwide to receive a \$5 million "**Teachers for a New Era**" research grant from the Carnegie Corporation of New York. The grant will help UTEP become a national model for teacher education programs.
- **The El Paso Collaborative for Academic Excellence**, a UTEP-based coalition among higher education, public school districts and the community, is committed to increasing the academic achievement of students in this region. The Collaborative is now a national model for such partnerships.
- **The Sam Donaldson Center for Communication Studies**, named after the renowned ABC News journalist and UTEP alumnus, provides academic enrichment programs to print and broadcast journalism students. The **Ruben Salazar Spanish Language Media Program** under the Donaldson Center helps prepare journalism students in bilingual and Spanish-language media fields.
- **The Refinery Science Corporation** based at UTEP has developed a cost-effective method for refining oil using nanotechnology.
- **The Eyewitness Identification Research Laboratory** in the Department of Psychology studies people's memories of a crime and has had its work featured in The New York Times.

Bob Stull

UTEP Director of Athletics

UTEP's athletic program has grown by leaps and bounds under the direction of Bob Stull. The Miners' football coach from 1986-88, Stull returned to El Paso in 1998 armed with a strategic plan designed to revitalize UTEP athletics. To say that Stull's strategic plan was comprehensive would be an understatement.

Fulfilling his vision, Stull has taken the Miners to new heights. The football team has won 21 games over the last three seasons. The men's basketball team has reached the postseason three of the last four years, earning NCAA Tournament berths in 2004 and 2005. UTEP achieved a rare triple during the 2005-06

athletic year, sweeping men's cross country, indoor and outdoor track and field Conference USA titles. The soccer program set a C-USA record with 20 wins in 2005 and garnered its first NCAA Tournament invitation, winning an opening round game at Texas. The volleyball team enjoyed its winningest campaign since 1989 in 2005, racking up 21 victories.

Other highlights from Stull's tenure at UTEP include the football team capturing its first Western Athletic Conference crown in 2000; the women's soccer squad leading the nation in scoring in 2002; and the rifle program registering an eighth-place showing in smallbore at the NCAA Championship in 2005.

Team success, however, doesn't even begin to tell the story of the impact Stull has made at UTEP. Student-athlete graduation rates have soared since his arrival. Existing facilities have been renovated, and sparkling new buildings – once a pipedream – have taken shape. The acquisition of major gifts has totaled \$20 million over the last three years, an all-time high.

Stull spearheaded UTEP's transition from the Western Athletic Conference – the Miners' home for over 30 years – into Conference USA. As a member of C-USA UTEP has maintained rivalries with state institutions Houston, Rice and SMU, while benefiting from increased regional and national exposure.

Off the playing field, Stull's greatest achievement has been widespread enhancements to UTEP's athletic facilities. The \$11 million, 65,000-square foot Larry K. Durham Sports Center opened in 2002 and features a 10,000-square foot strength and conditioning center; a sports medicine center; a student-athlete lounge and computer center; a football locker room; football coaches' offices; football positional meeting rooms; and a "Hall of Champions" which is utilized for numerous athletic department functions.

In 2005 construction was completed on the state-of-the-art, \$2.2 million Helen of Troy Softball Complex, home to UTEP's newest athletic team.

This past summer, Stull announced plans to construct the \$13 million, 45,000-square foot Foster and Stevens Basketball Complex. The facility, targeted for completion in 2008, will feature two practice courts, strength and conditioning center, sports medicine center, academic/film room, coaches' offices, locker rooms, equipment room and lounges for the UTEP men's and women's basketball teams.

Renovations have also been performed on all existing facilities. These renovations include: new artificial turf, new video boards and scoreboards in the Sun Bowl (football); new floor, new video boards and scoreboards, men's and women's player and coaches' locker rooms, training room and coaches' offices in the Don Haskins Center (basketball); men's and women's locker room, lounge, lights and bleachers at Kidd Field (track); scoreboards and locker room in Memorial Gym (volleyball); and a complete new field including irrigation and drainage at University Field (soccer).

Stull pledged to renew El Pasoans' interest in Miner athletics when he returned to the city. His plan to increase attendance at football games included adjusting ticket prices and introducing Miner Town to attract more families to the Sun Bowl. Miner Town was created to enrich the pre-game activity surrounding each football game, with food, games, rides and other entertainment for the entire family.

UTEP set school records for football total home attendance (287,394) and average (47,899) during the 2005 season, while leading Conference USA. The men's basketball team has played before 18 sellout crowds of 12,000 over the last four years.

Under Stull's leadership, a new family of logos was introduced. Fans universally accepted the change, resulting in a 400 percent increase in sales the first year alone.

UTEP's student-athlete graduation rate has risen consistently since Stull took charge. UTEP's 2006 APR (Academic Performance Rate) was 926 with no penalties.

Stull has made the personal development of student-athletes a top priority as well. Over 150 student-athletes participated in community service projects this past year, totaling approximately 450 hours worth of service.

Stull rejoined the UTEP family after a 10-year absence. He came to El Paso from the University of Washington, where he served as associate athletic director for development for two seasons. While at Washington Stull coordinated the development and fund-raising areas for the UW Athletic Department.

Prior to joining the staff at Washington, Stull spent two years as president and CEO of the Boys and Girls Clubs of King County, Wash. The organization consisted of 11 clubs in the Seattle area serving over 20,000 children, with 300 full and part-time employees.

What Stull is best known for is his coaching exploits on the gridiron, especially as a head coach at Massachusetts, UTEP and Missouri.

At Massachusetts Stull went 3-8 in his first year, then improved to 7-4 in 1985, with the nation's second-ranked scoring defense (11.5 points per game).

Stull arrived in El Paso in 1986 and immediately produced dividends. From 1971 to 1985 UTEP football teams went through six head coaches and posted just 26 wins. In just three years with the Miners, Stull's charges won 21 games and saw postseason action for the first time since 1967.

The team was 1-10 the year prior to Stull's arrival, but he was able to forge a 4-8 record in 1986, including conference wins over Colorado State and Utah to end the season.

The next year Stull did what was once thought to be impossible – post a winning season. The 1987 Miners finished 7-4. That season UTEP enjoyed the nation's largest average attendance boost (15,265) to what was then a school-record average of 42,805 fans.

A bowl berth came in 1988, when Stull guided the Miners to a 10-2 regular-season record and a second place finish in the Western Athletic Conference – both school records. UTEP played in the Independence Bowl that year.

Stull took over Missouri's football program in December, 1988. His straightforward, collegiate demeanor resulted in a warm reception at Columbia. Attendance at Faurot Field climbed by an average of 3,000 per game, which was Missouri's first attendance increase in 10 years.

Stull was selected to coach in the 1990 Hula Bowl All-Star Game in Honolulu, Hawaii. He also was selected National Coach of the Week following the Tigers' 30-9 upset of 15th-ranked Arizona State. Probably the most-publicized game of Stull's career was the historic "fifth-down" contest against eventual national champion Colorado.

Stull began his career as the defensive coordinator at Dubuque High School in Dubuque, Iowa. He later started his collegiate coaching career as a graduate assistant at Kansas State, his alma mater.

After Kansas State Stull moved on to Kent State, where he was the offensive line coach and recruiting coordinator from 1971-74.

Next came his long-running association with Washington, as Stull became the Huskies' wide receivers coach under head coach Don James in 1975. After four years of tutoring the wideouts, Stull served as the offensive coordinator and offensive line coach from 1979-84. He was a part of six bowl teams and three Pac-10 championship squads at Washington. The Huskies participated in the Rose Bowl three times (1977, 1980, 1981), and beat Texas, 14-7, in the 1979 Sun Bowl in El Paso.

A native of Davenport, Iowa, Stull holds bachelor's and master's degrees from Kansas State, where he was a three-year letterman and captained the Wildcats in 1967.

Stull and his wife, Kim, have two children – daughter Shannon, a University of Texas graduate, and son Kevin, who recently graduated from Arizona State. Stull is a member of the National Association of College Directors of Athletics.

THE SUN CITY
EL PASO, TEXAS

El Paso is steeped in more than four centuries of history and culture — a unique blend of 21st century cosmopolitan living, Old West pioneer spirit, and the rich Hispanic culture native to the region.

The average year-round temperature in the “Sun City” is 77 degrees, with 318 days of sunshine.

A wide variety of activities and events await residents and visitors, including the Amigo Airsho, the International Balloon Festival and the Southwestern International Livestock Show and Rodeo. Hiking, marathons and bicycle races are just a few examples of the outdoor activities waiting to be enjoyed in El Paso.

El Paso hosts the oldest independent bowl game in the country, The Vitalis Sun Bowl, which matches powers from the Pac-10 versus either the Big East or the Big 12. El Paso is also the professional home of the El Paso Diablos (baseball) and El Paso Patriots (soccer).

El Paso Facts

Area	_____	239 square miles
Population	_____	700,000
Climate	_____	Sunny and dry
Days of yearly sunshine	_____	318
Days of precipitation	_____	47
Average yearly temperature	_____	77 degrees
Temperature by months		
December-February	_____	High 60/low 31
March-May	_____	High 79/low 49
June-August	_____	High 95/low 68
September-November	_____	High 78/low 49
Yearly amount of rainfall	_____	7.82 inches
Mountains	_____	Franklin Mountains, elevation 7,167
Rivers	_____	Rio Grande
Parks	_____	166

THIS IS THE UNIVERSITY OF TEXAS AT EL PASO

More than 90 years ago, TNT blasts in the surrounding hills were part of everyday studies at the Texas State School of Mines and Metallurgy.

At the University of Texas at El Paso, as we are known today, it's the range of academic and research opportunities that's exploding like a supernova.

We're putting the stars within our students' reach.

Just ask UTEP alumnus John "Danny" Olivas.

Olivas, a 1989 mechanical engineering grad, is now a NASA astronaut who is scheduled to make his first-ever flight into space in February 2007. He will be part of the shuttle mission STS-117 crew and will work on the International Space Station.

In many ways, Olivas embodies UTEP's mission of providing access and excellence in higher education. He's among the 76,500 students who have graduated from UTEP over the past 92 years.

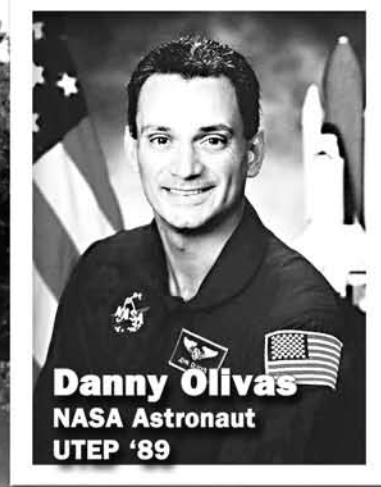

And like many of our students today, Olivas was a first-generation Hispanic college student, an under-represented minority pursuing a dream.

UTEP was the launching pad for his successful career.

"I got to explore a lot of job opportunities at UTEP and my professors encouraged me to take on big responsibilities," Olivas says. "They helped me realize that I had control over my own destiny."

Today, UTEP is helping shape the destinies of nearly 20,000 students – the majority of them Mexican-Americans from the El Paso region. But our reach extends beyond this metropolis.

Our location on the U.S.-Mexico border in the heart of the Chihuahuan desert makes UTEP an attractive choice for students and faculty from across the world looking for unique academic and research opportunities.

These opportunities have sent students on journeys they never imagined.

Under the leadership of our top-notch faculty researchers, our students are working on new methods for refining oil using nanotechnology; creating sustainable water supplies and new desalination technologies; and studying air quality along the border.

We're working with rapid-prototyping technology to create surgical models. We're excavating prehistoric villages for clues about ancient indigenous cultures. We're studying a person's memory of a crime to improve eyewitness identification techniques, and we're using biomechanical engineering to improve footwear design.

And if like Olivas our students dream of traveling the universe, they can start at our aerospace systems center where they're developing methods to help spacecraft fly safer.

With these and hundreds of other projects, studies and programs under our wing, we're making significant strides toward becoming the next top-tier research institution in Texas.

We rank third in federal research spending among all UT System academic institutions, with about \$36 million a year. And we are the country's only doctoral research-intensive university with a student body that's predominantly Mexican-American.

For these accomplishments, UTEP is nationally recognized as a model institution of higher learning. Our reputation for achieving excellence is skyrocketing.

The Hispanic Outlook in Higher Education magazine ranks UTEP among the top three universities in the nation in educating Hispanics based on enrollment, and among the top 10 in awarding undergraduate and graduate degrees to Hispanics. *Hispanic Business* magazine ranked us as having the No. 1 graduate engineering school for Hispanics.

We offer more than 80 bachelor's degrees, more than 70 master's-level degrees and programs and 14 doctoral degrees – and counting.

With many more programs and degrees in development, we're opening a universe of opportunities for students.

THIS IS
**THE UNIVERSITY OF
TEXAS AT EL PASO**

UTEP HOUSING
MINER VILLAGE

UTEP has added apartment-style living, the first of its kind on campus, to its community. The new UTEP housing, known as Miner Village, features one-bedroom, two-bedroom and four-bedroom units.

Miner Village's 12 apartment-style residence halls offer several floor plans, from cozy efficiencies to two- and four-bedroom units. Miner Village also features a community building which houses study rooms, a recreation area, private mailboxes and administrative offices.

The units are within walking distance to lectures, labs and other activities, as well as a short distance from the Sun Bowl and the Don Haskins Center.

There are no extended monthly fees in Miner Village – all utilities are included. The units also feature basic cable, laundry facilities, independently controlled refrigerated air, local telephone service and voice messaging.

All residents of Miner Village also have access to free on-campus parking at Miner Village, as well as direct access to the internet from their rooms.

The units have campus security, as well as a housing administrative staff that is available Monday through Friday.

Miner Village

- Local telephone service
- Basic cable
- Internet access
- Laundry facilities
- Free campus parking
- 24-hour campus security
- Recreational areas
- Full kitchens
- All utilities included

FIRST-CLASS FACILITIES
**LARRY K. DURHAM
SPORTS CENTER**

The Larry K. Durham Sports Center opened its doors in August, 2002. Named for successful businessman and former Miner football standout Larry Durham, the 65,000-square foot building, situated adjacent to the Sun Bowl, features:

Hall of Champions

Honoring UTEP's athletic heritage...the room is utilized for university and Department of Intercollegiate Athletics receptions and functions...features include: 11 flat screen TVs (three hanging, eight set into wall); seven swivel banners, showcasing sports currently sponsored by UTEP; and photos of football great Ken Heineman, track and field standout Suleiman Nyambui and the 1966 national champion Miner men's basketball team.

Strength and Conditioning Center

Boasts 11,420 square feet of space (old weight room was less than 5,000 square feet), and is utilized by all UTEP student-athletes...features include: open space with 22 stations for all Olympic lifting; all-new equipment; two office areas, one storage area and a juice bar.

Football Complex

Features include: 12 coaches' offices and one conference room; business center; video equipment room; kitchenette and storage area.

Football Locker Room

First-class and luxurious with 120 individually milled wooden lockers...also features an open meeting area, showers and bathroom facilities.

Sports Medicine Center

Encompasses 4,798 square feet of space (old training room was 2,064 square feet), and is utilized by all UTEP student-athletes...features include: taping and treatment areas; one hot and one cold whirlpool in the Hydro Therapy Center; X-ray and exam rooms.

Athlete Equipment Center

Features include: six dryers and three washers; upper space for storage, sewing machine, etc.; 160 small lockers for student-athletes to store uniforms and practice gear.

Student-Athlete Lounge and Computer Center

Features 14 computers which are utilized by student-athletes between classes and prior to practice...student-athlete lounge has three TVs, vending machines, etc.

Human Performance and Bio Mechanics Laboratory

A Kinesiology lab for students.

Other Durham Center Features

Six football positional meeting rooms; one large football meeting room; separate locker rooms for male and female students and coaches.

CONFERENCE USA

Team C-USA: Dedicated to Excellence

Excellence every day. For Conference USA, dedication to excellence is a common thread in athletics, academics and in the community, and the guiding initiative for the league's promising future. Conference USA features 12 nationally prominent, tradition-rich members in East Carolina, Houston, Marshall, Memphis, Rice, SMU, Southern Miss, Tulane, Tulsa, UAB, UCF and UTEP. This combination enhances men's and women's programs that are steeped in athletic success and academic prowess. Together, we are dedicated to excellence, integrity and leadership in athletics, academics and in our communities.

All C-USA institutions sponsor Division I-A football, along with several other men's and women's athletic programs, many of which compete regularly for NCAA Championships. C-USA sponsors competition in 19 sports - nine for men (baseball, basketball, cross country, football, golf, soccer, tennis and indoor and outdoor track and field) and 10 for women (basketball, cross country, golf, softball, soccer, swimming and diving, tennis, indoor and outdoor track and field and volleyball).

The league sponsors numerous academic awards, including the Commissioner's Honor Roll and the Commissioner's Academic Medal, indicative of outstanding achievement in the classroom. C-USA annually awards six postgraduate scholarships, along with the Sport Academic Award, Scholar Athletes of the Year and the Institutional Academic Excellence Award.

East Carolina
