

⚠ Traffic Alert ⚠

Wisconsin volleyball fans should be advised Monroe Street is in the midst of an eight-month reconstruction project. The project is scheduled to conclude in mid-November 2018.

During the construction project, traffic will be limited to one lane, inbound from Odana Road to Regent Street. **NO OUTBOUND TRAFFIC IS PERMITTED ON MONROE STREET DURING CONSTRUCTION.**

Additionally, several streets southwest of the UW Field House are closed due to construction staging.

If Monroe Street is part of your travel route either to or from Wisconsin volleyball matches, or is used to access your match day parking, please be aware of this Monroe Street reconstruction project. Allow for plenty of time before and after matches for travel and consider public transportation or other routes due to anticipated traffic delays.

For updates on the Monroe Street construction project, please visit the City of Madison's website at: <https://www.cityofmadison.com/engineering/projects/monroe-street>

Thank you for your support of Wisconsin Athletics.
