

Motiontrack™

asset management software

Manage your complex network of assets with one clean, intuitive solution. Efficiently maintain highly detailed historical data on assets, agencies, users, costs, locations, and more. Save time with streamlined processes and save money by increasing accountability, lengthening the life of your assets and optimizing their use.

Motiontrack helps you:

- know where equipment is + who it's assigned to
- reduce equipment loss + downtime
- track unique configuration details for each asset type
- stay on top of warranty dates + maintenance deadlines
- accurately budget for asset replacement
- bulk import/update multiple records
- track funding sources for assets
- stay prepared for annual audits
- visualize, analyze + export data
- keep a record of every change made in the system

includes the following integrated modules:

agencies

organizes records for multiple departments + locations in one place

assets

maintains detailed records for serialized + capitalized assets

alerts

notifies you of activity, changes + upcoming due dates

dashboards

visually displays + monitors the metrics that matter to you most
