## About StellarSites

StellarSites isn't your typical managed WordPress hosting. It's what the team behind it calls "solutions-based hosting"—a perfect middle ground between restrictive SaaS platforms and traditional hosting that leaves you to figure everything out yourself.

**What makes StellarSites different?** You get a fully optimized WordPress environment with premium plugins, themes, and security tools pre-installed and configured.

Think of it as getting a professional WordPress site ready to customize in minutes, not days.

**Who is it for?** StellarSites is purpose-built for:

- 🌟 **Small businesses** wanting a professional online presence without hiring a developer
- 🎓 **Educators and course creators** who need LearnDash-powered learning platforms
- 🛒 **Ecommerce brands** ready to launch WooCommerce stores quickly
- ❤️ **Nonprofits** needing donation tools and supporter engagement features
- 🎫 **Event organizers** managing ticketing and registrations
- 💼 **Freelancers and agencies** delivering fast, reliable client sites

What users absolutely love is that you get the power and flexibility of WordPress without being locked into proprietary systems. Your site is yours—completely portable if you ever decide to move. Plus, with 24/7 support, one-click updates, and built-in security from SolidWP and Patchstack, the ongoing management is genuinely painless.

# Why This Black Friday Sale Is Worth It

Let me break down the numbers because they're genuinely impressive this year.

Take the **Foundation Plus plan**, for example. Normally, you'd pay \$35/month. During this Black Friday sale, that drops to just **\$17.50/month** when billed annually. That's a saving of \$210 over the year—enough to invest in content creation, marketing, or other business essentials.

For the **Shop Essential plan** (perfect for starting an online store), the regular \$25/month becomes **\$12.50/month** annually. You're getting WooCommerce tools, premium hosting, and security for half the usual cost.

Even the entry-level **Foundation Essential plan** at \$7.50/month annually is remarkable value when you consider it includes Kadence Theme, Kadence Blocks, hosting, SSL, backups, and ongoing support.

**Why this year's deal stands out:** StellarSites is relatively new, and this Black Friday represents one of the best opportunities to lock in long-term savings. Once you're in at this rate, you're building your site on a platform created by the team behind tools millions already trust—GiveWP, LearnDash, Kadence, and SolidWP.

Honestly, if you've been shopping around for managed WordPress hosting and comparing prices, you'll know that this level of included premium tools usually costs significantly more elsewhere. This deal bridges that gap beautifully.
