Date: July 25, 2018

TheCapitalNet, Inc. raised seed capital from a Dallas, TX based investments group

Dallas, TX and Hyderabad, India - July 25, 2018: TheCapitalNet, Inc. a Software as a Service (SaaS) and Technology company, founded early 2018 by *Rakesh Bhatia along with co-founders Manish Gupta, Vijaykanth VK and Sandeep Reddy Pallavolu*, raised USD 0.5 Million in seed capital from *LFI, a Dallas, TX based investment firm* that has investments in Real Estate, Food & Beverages and Technology - Enterprise SAAS, Deep Technology (Artificial Intelligence and Machine Learning).

TheCapitalNet, is creating a technology platform for “*Unified Global Investment Ecosystem*” and recently released its first product “*TheBizPlanner*” (TheBizPlanner.com) to help entrepreneurs create business plans with ease and efficiency and reach out to the investors in a well-structured way.

“LFI brings a big strategic value other than the money alone, founder of LFI – Mr. Jason Lindwall has over 2 decades of rich Enterprise SaaS, B2B sales and relationship experience along with active involvement in over 20 acquisitions. All this is of huge value to us as a company as we scale the path ahead”, said *Rakesh, the founder and CEO* of TheCapitalNet, he added “The proceeds however will help us strengthen our technology team as well as geographical expansion.”

“It is a boon to entrepreneurs and founders as *TheBizPlanner* our first product, guides them very clearly on how to plan and present their business to investors, the best part is that it is made for entrepreneurs in strict collaboration with senior investors and successful entrepreneurs understanding exactly what is needed in a winning plan.”, said *Sandeep, the co-founder and Chief Product Officer* of TheCapitalNet, “We are very excited about our other products and features coming in shortly”, he added.

Jason mentioned, “I have interacted with the founding team at various instances and am confident of their competence to build something as ambitious as the range of products under TheCapitalNet umbrella, I also believe that I can add value to their business not just as an investor but as an advisor too. I wish the team the best.”
