Job Posting – Long-Term Substitute Mathematics Teacher

Long-Term Substitute - High School Math Teacher

Central Catholic High School, located in Toledo, Ohio is seeking a long-term substitute Math Teacher to teach Geometry and Math Ideas & Statistics. This temporary position would be available for the first quarter of the 2026-2027 school year (August to mid-October).

Responsibilities include delivering course content, supporting students with varied skill levels, supplementing existing lesson plans and materials as needed, collaborating with colleagues, and maintaining clear communication with students and administration.

A bachelor's degree is required; experience in mathematics, education, or a related field are preferred. An Ohio teaching license is helpful but not required. Candidates must be willing to support the mission and vision of Central Catholic High School.

Interested candidates should send a resume and brief cover letter to the attention of Mrs. Andrea Biederman via jobs@centralcatholic.org.
