

Discussion Questions

1. What is the goal of the Patient Revolution initiative led by Dr. Victor Montori?
2. What were some of the main challenges Liel Pink faced in navigating the U.S. health care system? How did the uncoordinated nature of the health care system affect the treatment she received?
3. Dr. Montori says he doesn't expect to see the full fruition of the Patient Revolution's work given how slowly change comes to the complex healthcare system. Do you think such change will ever be realized? Why or why not?
4. How does the Coordinated Care Clinic differ from traditional health care approaches?
5. Can you think of any other professions that could benefit from the Patient Revolution approach?
