

Suggested writing prompt (~250 words)

1. **Option 1:** Why do you think Lari's projects are so much more successful when women are put in the lead? Why do you think the women's posture and self-confidence changes when they work on these projects?
2. **Option 2:** Analyze how Lari's approach challenges conventional ideas about development and disaster recovery. Consider how her work connects issues of climate change, gender equality, and local innovation.
