THE BATTLE OF ARMAGEDDON

Int.

The second coming of Christ is now before us, the event toward which the entire Apocalypse has been moving. The title of the Book concerns the ascending, the presentation, the coronation of the Son, and. There is the promised return of Christ in power.

The marriage of the Lamb, the grand banquet which attends it, are speedily followed with the founding of the gates, Heaven and the governing parts of the army, that led by the victorious warrior Christ. The scene is one of war and blood, called "the battle of the great day of God Almighty." There is no quiet, peaceful merging of things into the peaceful reign of Messiah. The world would be cast into the wilderness of the wilderness and wrath of Almighty God. Judgment is that alone, making in the coming kingdom.
