The choice between yours and God.  
money and money  
people and property.

1. A city, state, community focus it.

Crazed with drink - gambling - debauchery - drugs - contradictions, ill-kept books  
The coming of Christ - no drink, but there was a point to them.  
With things that the demons of cities, metaphors  
But things that the people should drink.

(a) W.C. Cress, 1891 was  
never known for being great or  
highly intelligent.

The power of Satan and money, means, means.  
Behind the scenes of the Legislature, judges, city governments,  
Bills and laws, etc. and with the  
Business of tonight with a knowledge of the world.

1860 The town danger in - Law. On a descent of the hill, there stands. The other.  
I am glad that my church / children in danger. Is that all the question? I should mind, if  
what I do drink, more or less, than I will do it.

The youth and the city  
The youth and the city  
The youth and the city

2. A church, a denomination, a board, leaves for it.

Simply not! But yes.

- A national encyclopedia. How much money spent  
many committees are there } do not see with  
of the world.

ii. How many services there were  
many were caused } do not see with papers by the  
then talk about the statistical results

- A church. How much it cost? Must be, of course, in the world of  
God, but unless one would rather to be read, not monetary.

If we little child would read "Did you church ever built -  
the upon ministering of brother and, I know because of", - if  
the result of our work, would all the church, money, then  
thousand times are multiplied by all the other of heaven.

3. The coming of X seems to focus a choice.

One of two things with this of which he comes  
a choice from some of which into the  
of the world.

Staying the demons in the way  
"conversion of the demons"  
"conversion of the community"

These things are usually as a result of things  
of the world, they do not  
of the world, in the course of great things  
of the world, in the course of great things

Choosing a city. The kind of people we want.

Choice, one this kind.  
The church is . . . . . W.C. Cress.

Barometer and gauge.

Choosing a church.

Rather keep my dogs, heads, money, than is not to people who need me less

Choosing a soul.

Keep X, he is to follow the lead.
