March 57.15 (66:17) 67.34.18

THE HUMBLE OF HEART

Thought is the first; the high & left are who dwell in infinitude
who in absolute eternity (only flow in both) and
whose name is Holy, pure
: also make this a look in the narrow confines
of a human heart.

How is it possible!

Can understand some that the infinitude of love
is perfect heart
but cannot see how love can be together
the love & singleness in the one.

I. The Greatness of God in Respect to Space
"He dwelled in the high & left space: omnipresent
: Love, Love, beyond, beyond

We need the measuring rod for space in the simple heart
One - miles, billions, billions, quadrillions...
Then - cannot call, 24 hrs. Chemistry failures
Finally - velocity, light 136,000. mps, with 8' x 8' 2 1/2
- billions. And yet beyond.

But a more marvelous thing: God should dwell in being
of a god illustration: outside space, in sky, of joy stay and
gathered up in a moment | two, in the tiny world, in human eye
of a speck... these massive Orion with his shining belt
- the entire universe all visible (largest stars)
- the starry matter stay that exists

II The Greatness of God in Respect of Time
 "with in habited Eternity" ^{boundless space}
 thought that ^{definition} ^{boundless time}
 as ^{boundless space} ^{boundless time}
 (a) ^{boundless space} ^{boundless time}
 but can appreciate, see God near, do, ^{boundless space} ^{boundless time}
 can think God's thoughts after him
 do not ^{boundless space} ^{boundless time}

III. The Greatness of God in Respect of Character
 "whose name is Holy" ^{WITP} ^{separate, all aspects}
 One knowledge? ^{act} ^{from one another, could not be}
 we know what ^{act} ^{from one another, could not be}
 from all that is ^{act} ^{from one another, could not be}
 1. ^{act} ^{from one another, could not be}
 2. ^{act} ^{from one another, could not be}
 3. ^{act} ^{from one another, could not be}

get dwell in the limit, a man who by nature is a man

1. Knowing God intellectually; Christ the 3 mess

The intellect found immaterial, invisible - being all else, yet applicable
A 2nd kind of language stops when it reaches that last step
Can think God straight after him.

of a day in his dream
if I look in the meadows
for the soul of my life, much is intended to penetrate
the knowledge of God
- the stars of heaven, and all
at

2. But we can know God more closely, intimately, affectionately,
the whole body in spirit, however, deeper we can receive the living
the very reality, we can love God, respect God, be in God, be our Father,
be dwellers with 2 classes of men
a) the humble
b) the virtuous

(11) The Humble

a man who has a true estimate of himself
is a man who is a spirit in a spirit.
Some people are unbalanced spirits of intellectual pride
as an erroneous faith a first cause
evolutionist - the mostly correct regarding God
mystic - by that can lead
anti-scientific - there is an infinite intelligence far
beyond our own.

is many our personal sorrow, due to our own estimate of ourselves.
if we meet with the slightest disrespect
our spirit is not attended to - in fact, against
half the bitterness of his face with us can be as much
neglect, I mean

of us or God are mainly our own
- the only other person
to be found in the world
- the third cause of the whole room for other
- the first cause of the whole world for other
God dwells with the man
