Trend No. 10: The encounter with unbelief and evil powers.

The evidence that this encounter is becoming more and more significant is overwhelming in the 1980s. Over 2.2 billion people live under ~~de facto~~ restrictions on their religious freedom. The total number of people living in states where a missionary entry is restricted or prohibited comes to 3.1 billion. Conversionist mission is under attack. The number of Christian martyrs in 1986 was almost ten times the number in 1900. Resurgent non-Christian religions, spiritism, and the like have occasioned new concern for power encounter in missions.
