Obviously, progress of all kinds in human history
including progress in aerial bombing, affords us the
radius of the dissemination, political life. Progress
from immaturity to maturity is very gradual &
endeavor. But not a bit of evidence to prove
that your triumph over evil in the context
development of history. History a goal before
itself.

The Rev. A. Hartgering, Pastor, Presbyterian Church
Nashville, Tennessee, 1858:

"The night of earth's mental and moral darkness is certainly passing away. The morning star is in the moral sky. Since man's creation a night of 5,860 years has rolled away; not till the present century could Zion's watchmen see that "the night" was far spent."

Glaze at the signs of progress during the last fifty years. What has been done for man's material and temporal interests! What progress in science and art! What expansion and increase of

wealth and commerce! How steam
and electricity minister to human
wants and happiness! What facilities
for trade and travel! As the night
rolls on, we see uncommon tendencies
to a general amelioration of man's
condition. The faith of all Christendom
is going to work.

Ignorance and despotism are waning.
The Cross makes the Crescent give way
before the march of a spiritual and
pure Christianity.

What hath God wrought even the
past year! Some of the most
memorable events in the world's
history were recorded in 1858.
In view of them the Church can
almost anticipate the song of final

Triumph! "Alleluia, salvatoris in gloria
an hour as power unto the Lord our
God" The great events of the year
seem to converge upon one grand
object: the overthrow of idolatry and
superstition and the rigid spread of a
pure Christianity over the globe. The
rebellion in British India, bursting
like a storm over that vast
empire, threatening to destroy
English sway there, has been
subdued, and treaties establishing
British rule now firmly in
Asia and China have sent a
year [of praise & thanksgiving] throughout
the civilized world.

'Old China, too, is coming God's way to
and barbarous isles are shouting, - Jesus
Jesus, now!"

Dr. A. T. Robertson, The New Citizenship
Preface: "The present book is the reaction
of the author's own mind to the
new situation. ... Victory has
crowned the armies of America
and her Allies. The new day
has dawned. World-peace has
come. King Alcohol has
been dethroned. The reign of
the pot-house politician
with his graft and his
greed are over."
