THE ORIGIN OF EVIL

1-10 Address to genius of Tyre
Josephus 24-25 Vol 2
Phoenicians, Chaldeans, Syrians 25th book 2.
The King Nebuchadnezzar brought 10 years more to the city

12-17 The lamentation that you began.

Behind the ground, grass, stones, grains is seen another person ^{within}.
Originally a man's brain being, part of wisdom, part of a faculty.
A guide of Louis Michael the astronomer while recognized in his the grandeur of his
unfading part "The Sun while this".
28-14 "cast yourself" "prudent" "light" change to "darkness" and
"know thyself" "not" "under the wings" "to himself"

The origin of evil.

Co. 19: 24: 8:1 All creating a world was to his majestic greatness, magnificent
but though we see these miseries, a misanthrope declares that he
did so proud
creation is mixed, filled with goodness, misery, that it
is the mixture of it is man, most intricate part
making suffering inevitable
history - was oppression

Who responsible?

The subject of a friend may have. Mankind, humanity, deciding to wage.
"you had to work it but it's not a bad!"
"When we started studying my course, they are issued a card for a
"Name - giving day second" Confusion & doubt is inevitable to this point
mortality: "Blame that from whom all evil comes flows,
" him who since was from
" who provide more than enough,
" who say to the ships & answer the people."

Admit if an argument for criticism that is it: an ordinary, suffering, death.

Then let the artist and scientist explain it.

Matter is eternal.

Event, experience matter produced of itself life, a cell.

Developed these including up, up, intelligence, personality.

Life with its constant sorrow, suffering, no accident, no perfect development.
as John Fiske "and is nothing more nor less than the brute as he is
which every man carries with him and the process of evolution is
an advance toward the true salvation."

And I cannot see within me, the process

The beginning - what another producing personality

The end - evolution being away with us.

4000 to 2000 years, no better now than before

The Scriptural account

The garden of Eden, the shadow of another garden.
It is not a parcel of land, an acreage. Crafty, subtle, ingenious.

Who is this being?

Isa. 14: 12-14

Ezek. 28: 12-17

Psa. 12: 7-9, 12-17; 7: 11

Milton: "thin the idly bright, huddled headlong
flaming from the ethereal sky"

Milton's theology, but a trace.

Above man is another world, an order, beings, angels. The angels, the
creative beings? we do not know. Job 38: 7

But they were created as we were: free moral beings, freedom, will.
One of them, Lucifer, "light bearer" an exponent of the good, the
"the church's 2nd world"

His beauty, wisdom, grace lifted up to the level of the angels

(1) Absalom.

The terrible judgment. Satan is the universe. Gen. 1: 1 $\frac{1}{7}$ 2

Man gives the same freedom. Lucifer, Satan, to try him
if Job "was to will more than to thy face"

So Satan: "He will not say thy law:
the things they do not follow."

Satan is the transgression of the law
of lifting up of the spirit against God.

3) regard to the human
"will break down his walls
shall be my very God."
Isa. 45: 17 "I was the state"

Satan: "I am the universe, universe, God" my way will void.

The angels are void: heaven into hell.

(2) "I desire your laws, Christ."

Do as I please. Not my power I have. But as my will."

"What is the matter, matter, you do not act!"

"Nothing, just that by about the top."

Simply in the past, the very word. The day without God in his eye.

"What is the matter, Christ?"

"Nothing, just that by about the top."

"By the day you 'show to make you' 'Nothing, I am just thinking about doing.'
The word to himself" Meaning? The substance, double will.

SATAN

From story of Adam, Eve, know already present in earth before.

Before fall of Adam, in the ages of creation, seemingly God's numerous divided into spheres, powers, each of which made material of a heavenly power Col. 1:16, Eph 1:9 - of angels, archangels, showing order among them.

Satan said powerful prince we know of. Jude 9. Michael.

Middle age caricature of him - foolish, grotesque, horns - feeble minded but in fact - ridiculous figure.

Truth is: prince of mostly negative intelligences. Vicious, capable of infinite resentfulness. Sublime figure, brilliant. Great mysterious logic, ungraspable. Multi-headed, left winged. II Cor. 11:14 "angel of light"

God's mighty adversary.

Earth assigned him.

"prince of the world" here at beginning. Lucifer: "light-bringer". So dark to God, not to man a blind prince, family, no, but equal... Terrible chaos. Heb. 1:1, 2 abandoned position in gov. of God, descended to lower heaven, rebellion, eyes.

Still a prince, the world: God not yet removed him. Eden Christ incarnation: Heb 7 Anywhere

Antinomianism dead, joyful nature of Anomianism
shall continue in its former way until the
7th. We are Adam - commercial law, law
of Adam's descendants.
